Zhejiang Yongkang Dancy Machine Co.,Ltd

MMA,MIG,TIG,Air plasma cutter,3 in 1 combo welder

Digitalized inverter DC MIG/MMA welding machine
Characteristics:

- Digitalized controlling, meet the demand of MIG and MMA.
- Adjustment of non-polar welding voltage and wire-feeding speed adjustment.

- Suitable of solid core, medicine core, and flux cored wire.
- IGBT technology and frequency of switch up to 40KHZ, the controlling accuracy more higher
- Compact design, easy to carry

Welding parameters display: show the data directly, more convenient to see and adjust

Welding parameters are reserved into the machine

Adjust the welding parameters freely according to the work piece and welding craft

Select the operation mode between MIG and MMA

VRD function: the no-load voltage is lower than safe voltage 24V, effectively protect the personal safety of workman.

The operation mode (2T/4T) of welding torch, greatly reduce the operation intensity.

Gas checking: check the gas supply is normal or not, reduce the welding defects due to poor gas supply

Quick wire feeding, improve working efficiency

With over current, over voltage over heating protection

THE WORLD'S FIRST

DIGITALIZED INVERTER DC MIG/MMA WELDING MACHINE IGBT tech

MIG-155V

Input voltage (V):	220V ± 15%	
No-load voltage(V):	65V ± 5V	
	MIG	MMA
Rated output current(A):	20-155A	20-155A
Rated output voltage(V):	21.2V	26.2V
Rated Input power capacity:	3.9KW	4.8KW
Rated input current(A):	17A	21A
Power factor:	0.8	
Duty-cycle:	60%	
Insulation class:	IP21S	
Protection class:	F	
Diameter:	0.6 2.5-3.2	
N.W/G.W:	10.5kgs/17.5kgs	
Packing:	500x240x350mm	

MIG-175V

Input voltage (V):	220V ± 15%	
No-load voltage(V):	65V ± 5V	
	MIG	MMA
Rated output current(A):	20-175A	20-175A
Rated output voltage(V):	22V	27V
Rated Input power capacity:	4.9KW	5.9KW
Rated input current(A):	20A	24A
Power factor:	0.8	
Duty-cycle:	60%	
Insulation class:	IP21S	
Protection class:	F	
Diameter:	0.6-0.8 2.5-4.0	
N.W/G.W:	10.5kgs/17.5kgs	
Packing:	500x240x350mm	

MIG-200V

Input voltage (V):	220V ± 15%	
No-load voltage(V):	65V ± 5V	
	MIG	MMA
Rated output current(A):	20-200A	20-200A
Rated output voltage(V):	25V	28V
Rated Input power capacity:	5.9KW	6.9KW
Rated input current(A):	26.8A	29.5A
Power factor:	0.8	
Duty-cycle:	60%	
Insulation class:	IP21S	
Protection class:	F	
Diameter:	0.8-1.0 2.5-4.0	
N.W/G.W:	10.5kgs/17.5kgs	
Packing:	500x240x350mm	

MIG-135

Input voltage (V):	220V ± 15%	
No-load voltage(V):	65V ± 5V	
	MIG	
Rated output current(A):	20-135A	
Rated output voltage(V):	21.2V	
Rated Input power capacity:	3.5KW	
Rated input current(A):	15A	
Power factor:	0.8	
Duty-cycle:	60%	
Insulation class:	IP21S	
Protection class:	F	
Diameter:	0.6	
N.W/G.W:	10.5kgs/17.5kgs	
Packing:	500x240x350mm	

MIG-155

Input voltage (V):	220V ± 15%	
No-load voltage(V):	65V ± 5V	
	MIG	
Rated output current(A):	20-155A	
Rated output voltage(V):	21.2V	
Rated Input power capacity:	3.8KW	
Rated input current(A):	17A	
Power factor:	0.8	
Duty-cycle:	60%	
Insulation class:	IP21S	
Protection class:	F	
Diameter:	0.6	
N.W/G.W:	10.5kgs/17.5kgs	
Packing:	500x240x350mm	

MIG-195

Input voltage (V):	220V ± 15%	
No-load voltage(V):	65V ± 5V	
	MIG	
Rated output current(A):	20-200A	
Rated output voltage(V):	25V	
Rated Input power capacity:	5.9KW	
Rated input current(A):	26.8A	
Power factor:	0.8	
Duty-cycle:	60%	
Insulation class:	IP21S	
Protection class:	F	
Diameter:	0.8-1.0	
N.W/G.W:	10.5kgs/17.5kgs	
Packing:	500x240x350mm	

Digitalized inverter DC mma welding machine with Pulse

Characteristics:

- Adopt with ST digital 16 bit MCU intelligent control, more precision, fast response, greatly improving the reliability and welding process.
- Greatly reduce the splash and slag phenomenon, welding slag cleaning easier.

- With pulse function, greatly lower the request of workman skill. Through adjusting the ground current and pulse duty cycle, you will performance a perfect welding figure of fish scale in spite that you are not the professional.

Welding parameters display: show the data directly, more convenient to see and adjust

Pulse key, meet the differnt demand of workman.

VRD function: the no-load voltage is lower than safe voltage 24V, effectively protect the personal safety of workman.

Adjustment knob of welding parameter setting, and with memory function

Meet the welding process requirements of various welding electrode and work piece.

With over current, over voltage over heating protection

Pulse selection to meet different welding requirements

THE WORLD'S FIRST

**DIGITALIZED INVERTER
DC MMA WELDING MACHINE WITH PULSE**

MMA-250P

Input voltage (V):	220V ± 15%
No-load voltage(V):	75V ± 5V
Rated output current(A):	20-240A
Rated output voltage(V):	29.6V
Rated Input power capacity:	8.4KW
Rated input current(A):	38A
Power factor:	0.8
Duty-cycle:	60%
Insulation class:	IP21S
Protection class:	F
Diameter of Electrode:	2.5-5.0
N.W/G.W:	5.6KGS / 8.1KGS
Packing:	410x210x260mm

THE WORLD'S FIRST

**DIGITALIZED INVERTER
DC MMA WELDING MACHINE WITH PULSE**

MMA-180P

Input voltage (V):	220V ± 15%
No-load voltage(V):	75V ± 5V
Rated output current(A):	20-180A
Rated output voltage(V):	27.2V
Rated Input power capacity:	5.7KW
Rated input current(A):	25.9A
Power factor:	0.8
Duty-cycle:	60%
Insulation class:	IP21S
Protection class:	F
Diameter of Electrode:	2.5-4.0
N.W/G.W:	5.6KGS / 8.1KGS
Packing:	410x210x260mm

MMA-200P

Input voltage (V):	220V ± 15%
No-load voltage(V):	75V ± 5V
Rated output current(A):	20-200A
Rated output voltage(V):	28V
Rated Input power capacity:	6.9KW
Rated input current(A):	28A
Power factor:	0.8
Duty-cycle:	60%
Insulation class:	IP21S
Protection class:	F
Diameter of Electrode:	2.5-4.0
N.W/G.W:	5.6KGS / 8.1KGS
Packing:	410x210x260mm

MMA-160P

Input voltage (V):	220V ± 15%
No-load voltage(V):	65V ± 5V
Rated output current(A):	20-160A
Rated output voltage(V):	26.4V
Rated Input power capacity:	5KW
Rated input current(A):	22.7A
Power factor:	0.8
Duty-cycle:	60%
Insulation class:	IP21S
Protection class:	F
Diameter of Electrode:	2.5-3.2
N.W/G.W:	5.6KGS / 8.1KGS
Packing:	410x210x260mm

Inverter DC MMA welding machine

Characteristics:

- The main components far away from the wind crossing, significantly protect them against dust.
- Frequency up to 65KHZ,responding faster,higher welding accuracy.
- Compared with the power switch,SAP® technology its interference decline sharply.

- High-power radiator components placed on the wind crossing,good cooling peformance,greatly prlong its life.
- 95% of the broken welding machine,its due to the impact damage of IGBT at short circuit.We adopt with SAP® technology,its voltage drop automatically to solve this problem.The reliability of IGBT improve greatly and avoid the explosion of machine.Compared with the power switch,SAP® technology its interference decline sharply.

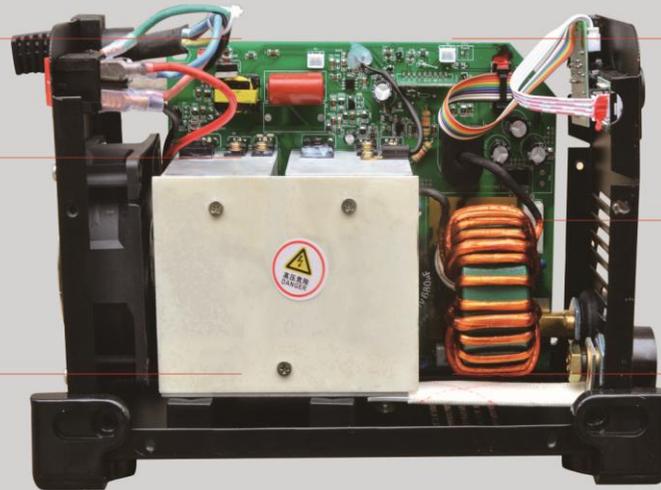

With single board,simple structure,easy to repair

With SAP® technology,improve the reliability

Special radiator design,duty cycle up to 60%

The frequency of 60KHZ,control precision, improve welding process

large scare of input voltage from 265V to 165V,work normally

Overheating, over voltage,undervoltage and overcurrent protection

SMT series WELDING MACHINE/START/CHARGING

Single phase input, portable, with multi-functions: MMA welding, charging and starting
 MMA welding: max electrode diameter 4.0mm
 Battery charging: charging and starting boost for lead-acid battery with 12v/24v/36v
 Automatic identification system of positive and negative
 Work normally in spite of low voltage with 165V
 Suitable for all kinds of electrodes including cellulose electrodes

TECHNICAL DATA

Model	SMT-300	SMT-480
Charging voltage(V)	12/24/36V 50Hz	12/24/36V 50Hz
Charging current(A)	175/87/44	280/140/70
Start current(A)	300	480
Rated output capacity(KVA)	7	11.2
Efficiency	85%	85%
Power factor	0.92	0.92
Protection grade	IP21S	IP21S
Rated welding current	180	250
