★1-3/8" Gate Corner

Chain link fence gate corner for replacement or building a chain link gate with 1-3/8" gate frames. Gate corners are made of aluminum for long life without rusting. When building a gate use four chain link gate corners per gate. No gate welding with gate corner. 1-3/8" gate frames are most popular in residential chain link fence gate applications. Corner includes bolts for installation.

★Cantilevered Gate Rollers

Cantilever gate wheel used for the sliding cantilever gate, it is designed to be fitted on the ground and the sliding cantilever channel embrace the wheel system. when the gate channel be push-and-pull by the gate electoric motor, the gate will be sliding.

Made of general Q235 steel give to quality and durability.

Surface alvanized in silvery , yellow, multicolour , which make the wheels perfectly resistant to fight against rust and have a beautiful surface.

The existing gate wheel diameter come in 48mm .

The outside of wheel is chamfered to make the gate sliding smoothly and less noise.

Anping County Yexiang Hardware Wiremesh Products Co., Ltd.

The 8 sliding cantilever gate wheel are matching sliding gate channel, sliding cantilever gate guider wheel, sliding cantilever gate end stopper, sliding cantilever gate end cap, sliding cantilever gate adjustable bottom plate which we are supplying.

We also supply 3 gate wheels, 5 gate wheels, 9 gate wheels, 10 gate wheels, 16 wheels.
