

Stator winding inserting machine

We have two types of coil inserting machine, the automatic type and the semi-auto type. The **automatic coil inserting machine** can insert stator coil and wedge at same time, which improves the labor productivity. This automatic winding inserting machine can be connected with a mechanical conveyor to achieve the mass production.

The **semi-auto type** one can only used to inserting the coils. But the price is far more favorable. It can greatly reduce the labor forces. Firstly, operator needs to load the stator to the required tooling position. Then press the start button. Machine will do the inserting process.

Stator suitable for our machines: compressor motor, fan motor, air conditioner motor, three phase motor, single phase motor, washing machine motor, generator motor, pump motor, etc.

Beside stator winding inserting machine, we also supply other machines, like **armature production machine** (assembly line, armature winding machine, turning machine, balancing machine, welding machine, trickling machine); **stator production machine** (stator winding machine, winding inserting machine, forming machine, lacing machine, powder coating machine ect); **motor components**(such as commutator, ball bearing, carbon brush, insulation paper, shaft, magnet, fan, motor cover, etc.) and **project support and turn-key service** for some motor manufacturing.

PRODUCT CATEGORIES

Company introduction:

Established in 2007, Nide is a company devoted in the field of electric motors manufacturing, providing one-stop service for its customers. Nide has three main business divisions. The first division is to provide different kinds of **motor manufacturing machinery**, including stand along machine, fully-auto complete line for armature and stator production, and the motor assembly line. The second division is to supply the full range of **motor components** such as commutator, ball bearing, carbon brush, insulation paper, shaft, magnet, fan, motor cover, etc. The third division is to provide **technical support and consulting**, project support and turn-key service for some motor manufacturing.

Nide has following affiliated companies

Ningbo Nide Mechanical Equipment Co., Ltd

Jiangsu Nide Automation Tech Co., Ltd

Jiangsu Xiandian Mechanical Co., Ltd

Ningbo Haishu Nide International Co., Ltd

With good service, unique philosophy, professional team and reliable quality, we win the worldwide customers` confidence gradually. We directly and indirectly supply our products to more than 40 countries such as Germany, U.K, Spain, Italy, Turkey, Brazil, Argentina, Mexico, Iran, India, Vietnam, etc. Among the customers, many of them are the world-renown companies.

In the international market, Nide is the leading motor manufacturing machines supplier from China.
