

# HAE Vertical Wall Printer Series

*-New solution and technology for wall decoration*

Wuhan HAE Technology Co., Ltd , since 2006, Wall Printer Inventor. We start to manufacture and export Direct to wall printer from Year 2010.

We have got more than 15 patents and serviced more than 6000 customers in past ten years.

# HAE wall printer developing history

Year 2008 Wuhan HAE  
start to develop wall printer

Year 2010, Wuhan HAE  
start to manufacturer thermal  
unfoldable chain horizontal  
machine

Year 2011, Wuhan HAE  
developed foldable belt  
horizontal machine

Year 2014, we developed  
lighter weight horizontal  
piezoelectric nozzle wall  
printer

Year 2013, Wuhan HAE  
developed piezoelectric  
Nozzle vertical wall printer

Year 2017, Wuhan HAE  
developed tablet PC control  
wireless vertical wall printer

Year 2016, we developed  
wireless remote control  
vertical wall printer

Year 2015, Wuhan HAE  
improved the digital cable  
to fiber cable and USB 3.0  
to enhance digital transfer

Year 2012, We developed  
themal rack vertical wall  
printer

# Technical Data

Model	YC-S25OP	YC-S25OC	YC-UV26	YC-RP25
Photo				
Remote	Mobil Wireless Control	Mobil and PAD Wireless Control		Remote control
Ink	CMYK synthesis Ink		CMYK+W+W UV Ink	CMYK synthesis Ink
Communication interface	USB3.0	Wifi		USB3.0
Digital Transfer	Fiber Cable			
Inkjet Technology	Variable ink drop technique			
Driving Program	Windows XP, Windows 7, windows 8, windows 10			
Actual Size(cm)	264(H)x450(W) cm			257(H)x50(W) cm
Printing size	No Limit			
Printing Speed	3.5-36m²/hour			2.5-12 m²/hour
Printing Heads	1-2pcs for choice Epson DX7			1pcs

# Technical Data

Model	YC-S250P	YC-S250C	YC-UV26	YC-RP25
Photo				
Printing Resolution/Model	720x 360dpi-Testing mode, 720x 720dpi -Production mode, 720x 1440dpi-High resolution mode			
Printing Photo Mode /Format	Any Mode, Any Format			
Certificate	CE Certificate for wall printer, RoHS certificate for Ink			
Ink Supply System	Continuous Ink Supplies			
Precise Positioning	Laser Cross			
Working environment	0-45 degree Celsius			
Patent	Invention patent, appearance patent, utility model patent			
Motor	Servo Motor, instead of Stepper, that can stable work in outside			
Lead Rail	High precision imported lead rail			
Shelf Material	Light weight Aluminum alloy			

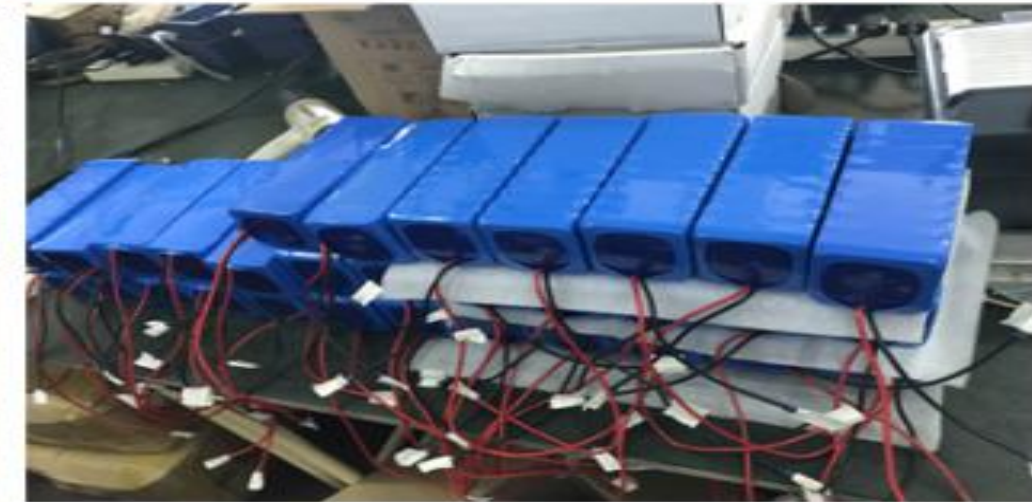

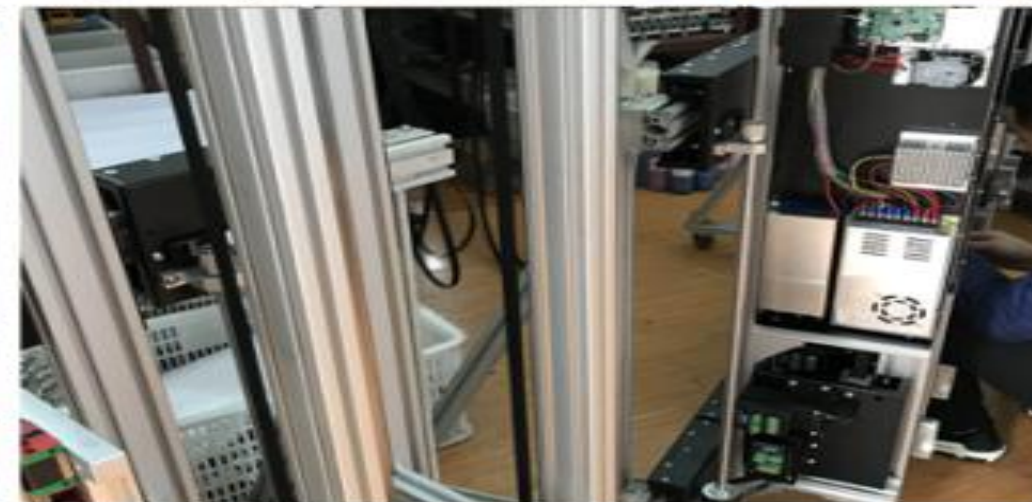

# Technical Data

Model	YC-S250P	YC-S250C	YC-UV26	YC-RP25
Photo				
Mainbord Configuration	4-core CPU, 4GB DDR memory	8-core CPU, 8GB DDR memory	8-core CPU, 8GB DDR memory	4-core CPU, 4GB DDR memory
Mainboard	Imported Main Chip, 8 layers car class mainboard, advanced protection program avoid burn down			
Lauguage	Chinese, English			
Suitable	Suitable for a variety of special materials : interior and exterior painted walls, brick wall , Rolling gate, wood, canvas, tile, glass, paper, Pleat window, blind, decoration board, calcium silicate board with microporous and so on			
Photo life	More than 10 years, washable and anti ultraviolet			
Software	HAE Own One-step Printing Software			
Mobil Control System	Android System Mobil			N/A
Vertical Part Weight	about 35kg,			
Packing	Standard Exporting Free fumigation 9 layer plywood			

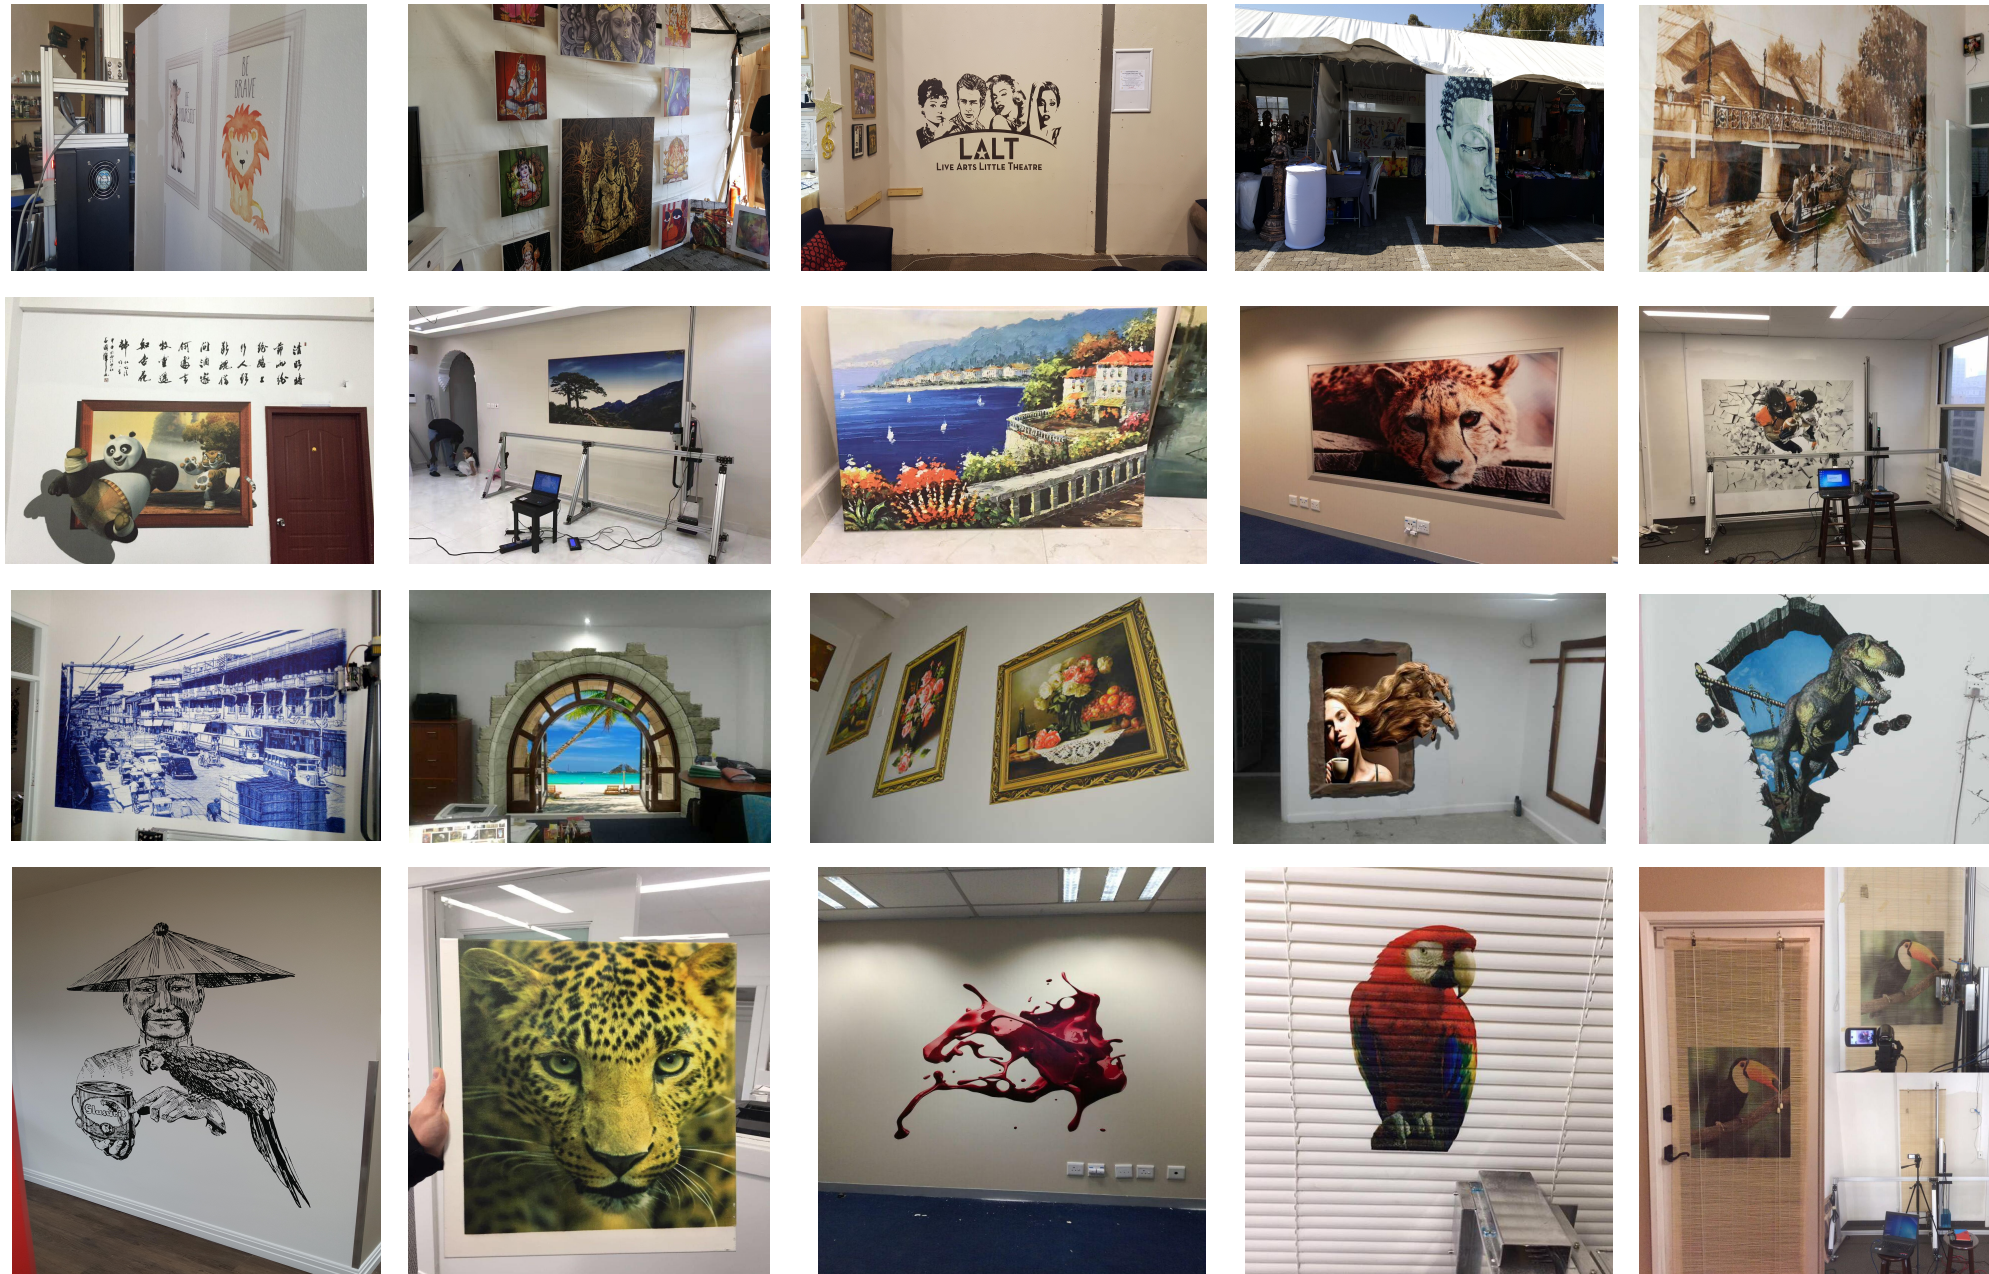

Portable roller case for choice  
Size will be customize according to order details
