

WELDING FUME EXTRACTOR

Brief description

The solder fume extractor is a kind of industrial environmental protection equipment, which is mainly used in arc welding, CO2 protection welding, MAG protection welding, special welding, cutting and polishing place. The purified air can be directly discharged indoors.

FUME EXTRACTOR ADVANTAGE

1. Telescopic flexible suction arm can be turned at 360 degrees and can be stretched to any position.
2. The integrated high efficiency filter element can filter the welding fume (0.3 μm) up to 99.97% and maintain extremely high gas flow rate.
3. Compact and compact, it can be used even in narrow workplaces.
4. Installed with a universal wheel, mobile and flexible and flexible.
5. Equipped with high-performance turbine fans, large air intake and low noise.
6. The consumables in the purifier are stable and easy to replace.

WELDING FUME EXTRACTORS

WEDING SOMKE FILTER UNIT WITH TWO EXHAUST ARMS

Model	Air Flow (m ³ /h)	Filter Dimension	Powder (kw)	Voltage V	Noise (dB)	Filter Precision %	Dimension mm
JYS-2-15	1500	320x300	1.1	220V	65	99.9	460x480x950
JYS-3-15	1500	320x500	1.1	380V	68		500x680x1000
JYD-3-30A	3000	320x300 (2)	2.2		70		500x680x1100
JYD-3-30B	3000	320x500 (2)	2.2		72		750x800x1200

Note: JYS with one arm, JYD with 2 arms. The length of arm is 3m. Flexible Duct diameter is 160mm.

STANDARD FEATURES

1.

Easy Operate Extractor Arm

Exhaust arm up to 4 m

2.

Strong Frame Support

3.

Energy saving Copper motor

4.

Automatic radiator

Prevent motor was burned

5.

Filter efficiency > 99.5%

6.

Caster moving around

With brakes universal wheel

CUSTOMER COMMENT

Miro 陈陈陈 anna ;

Greetings Anna ,

The trial order had passed the test.
Do you have these welding fume extractor on stock?
30 units of welding fume extractor ,model JYS-2-15 ,with single arm
50 units of welding fume extratr , model JYD-3-30B ,with double arms
I need the fob price on Proforma ,I will send money to you tommorom

Miro

ABOUT US

BOTOU EVER LUCKY ENVIRONMENTAL PROTECTION MACHINERY CO., LTD

Botou ever lucky environmental protection machinery co., ltd is a professional manufacturer with research, design, manufacture, installation and after-sales service of dust collectors and conveying equipment.

We are the technological development and production base of high-grade, high-performance, high-quality environmental protection machinery and accessory parts in China.

We have gone through a history of more than 20 years. Every step is inseparable from the concern of our customers! In the future development also needs your support! Willing to work with you to create a better future together...
