

Movable ground/pit scale

Product advantage

It uses super-thin type single layer platform (optional stainless steel), checked plate, has camel color primer, has height of 1110 mm-128mm (adjustable), is convenient for movement, and only requires site leveling instead of installation.

Product application

It is widely used in industries such as metallurgy, chemicals, paper making, coal, building material, light industry, port, transportation, power and storage for trade settlement measurement and control.

Feature and advantage

1. Adjustable height: convenient installation
2. Without fixing: Platform is movable, and is suitable for weighing at several sites
3. Wide application: Able to use in special fields such as explosion proof and antiseptis as option
4. Complete auxiliaries: Optional auxiliaries such as approach, large screen, computer and lengthening cable

Relevant product recommendation

1. L-BS-**-MG type load cell
2. XK3105 type weighing indicator

Detailed specification

Product type	Platform size (Width×Length) (m)	Capacity (t)	Division (kg)
SCS/ZCS -G1-1010	1.0×1.0	0.5-3	0.5-1t: 0.5kg 2-3t: 1.0kg
SCS/ZCS -G1-1012	1.0×1.2		
SCS/ZCS -G1-1212	1.2×1.2		
SCS/ZCS -G1-1215	1.2×1.5
