# Description

AT919A series trainers are designed for easy, effective operation and are the most compact and efficient dog training systems on the market today. Among the many powerful features that set these systems apart from any other is the advanced anti bark intelligent technology.

The AT919A has a unique dog bark identification technology which identifies pattern barking, then triggers the proper correction. For example, the first bark will trigger an ultrasonic beep, if the barking continues or gets louder, a vibration correction will be issued. If the barks get even louder and more frequent, a shock correction will be administered. Continued barking will cause the intensity of shocks to increase. If the barks decrease or stop, the corrections decrease or stop automatically.

Unlike most anti bark trainers on the market, the AT919A series intelligently distinguishes excessive barking from normal behaviors such as scratching or running, thereby preventing false corrections.

The 919A is stylish, lightweight, and completely waterproof.

# Quick Start

**Step 1:** Screw the metal prongs onto the trainer till the prongs are securely attached. Normally, they are assembled in the factory.

**Step 2:** Charge the trainer. Lift the small rubber tab on the trainer to access the charging port. Plug the wall charger into the wall socket and into the charging port of the trainer. A red led light will be visible on the trainer during the charging process.

*Tip 1: It is recommend to charge the trainer for up to 8 hours for the first 3 times.*

**Step 3:** To turn on/off the trainer, just make the magnet touch the magnet switch on the trainer until the trainer vibrates. The red and blue lights will flash once and the trainer will beep.

*Tip 2: To do a self-test, place the magnet near to the ON/OFF area on the trainer for 3 times, and the trainer will beep, vibrate or shock with the blue light on, indicating the trainer works normally.*

# Training Tips

This product is intended to support behavioral training and is not designed to be used without necessary interaction. Always praise your dog for good behavior. Verbal commands with positive reinforcement will contribute to success of your training and will achieve the fastest and most desirable results possible.

The recommended age for training is a minimum of 6 months, provided that dog has the attention span and capability to learn basic commands. And it should not be used on aggressive or elderly animals in poor health or animals otherwise unable to withstand the stimulus.

Use verbal commands first, and supplement with a corrective stimulus only as needed. Be consistent with your verbal commands, using the same words every time. Work with your pet on one behavior at a time to avoid confusion and frustration. Use as little stimulus as possible and only to reinforce verbal commands when necessary. Do not over correct your dog.

For example, use the beeps as warning by pressing Beep button. The dog will become conditioned to the beep preceding the corrective stimulus and will soon learn to recognize the beep as a warning along with your verbal command. Do not rely on this product solely to train your dog. Some dogs will not respond to this product. Aetertek cannot guarantee the effectiveness of this or any trainer on your dog. If your dog shows signs of growling, snarling, biting or aggression while using the collar, discontinue use immediately and contact a professional trainer for advice.

# Safety Guide

1. It is forbidden to open the receiver in case of breakage of the machine or harm the waterproof Feature; otherwise it will violate warranty rules.
2. In order to guarantee submersible feature, the waterproof rubber charging lid should be plugged in tightly.
3. Only use the supplied adaptor to charge the receiver, otherwise the receiver will probably be damaged.
4. Users are NOT suggested to touch the metal prongs on the receiver, otherwise it will harm human body in case of shocking operation. To test shock correction, please use the supplied test kit.
5. If there is water in the charging hole, please dry it before charge the receiver
6. Any collar worn for extended periods can cause a condition similar to bedsores, known as Pressure Necrosis. To reduce the possibility, you must do the following (**VERY IMPORTANT**):
  - a. Never leave the collar on dog for more than 12 hours per day;
  - b. Examine the dog's neck daily for any signs of a rash or sore;
  - c. Supervise your dog during the first 2 days of training;
  - d. Check the fit to prevent excessive pressure. You should be able to insert one finger between the collar strap and your dog's skin;
  - e. Wash the dog's neck area and the correction poles as often as needed to keep the area and poles clean. If signs of skin irritation are noticed, immediately discontinue use and apply antibiotic ointment to help and soothe the area.

# **Information on Terms of Use & Limitation of Liability**

## **1. Terms of Use**

This product is offered to you conditioned upon your acceptance without modification of the terms, conditions, notices contained herein. Usage of this product implies acceptance of all such terms, conditions, and notices.

## **2. Proper Use**

This product is designed for use with dogs where training is desired. The specific temperament of your dog may not work with this product. We recommend that you not use this product if your dog is less than 8 pounds or if your dog is aggressive. If you are unsure whether this is appropriate for your dog, please consult your veterinarian, certified trainer or contact our customer support.

## **3. No Unlawful or Prohibited Use**

This product is designed for use with dogs only. This dog training device is not intended to harm, injure, or provoke. Using this product in a way that is not intended could result in violation of Federal, State or local laws.

## **4. Limitation of Liability**

In no event shall Aetertek be liable for any direct, indirect, punitive, incidental, special or consequential damages, or any damages whatsoever arising out of or connected with the use or misuse of this product. Buyer assumes all risks and liability from the use of this product.

## **5. As agreed by related parts, the seller is responsible for after-sale service, and Aetertek only provide technical support. So if you have any problems related to quality warranty, please contact the seller.**

## **6. Modification of Terms and Conditions**

Aetertek reserves the right to change the terms, conditions, and notices under which this product is offered.

# Warranty Card

Thank you for purchasing our dog trainer, one of the best training systems available for training your dog. Aetertek warrants the product to be free from defects in material and workmanship, arising under normal use for a period of 1 year from the date of original purchase when brand new. Misuse, loss or improper handling is not covered. Aetertek will not pay for transport/insurance costs incurred in returning the product to our authorized Reseller, such as loss of time, inconvenience, loss of use of your product, loss of your product and any incidental or consequential damages. To be entitled for 1 year international limited warranty of our dog trainer, please fill in the warranty card and keep it safe together with your proof of purchase. Failure to provide documentation will void warranty. This warranty extends only to original purchaser and is non-transferable.
