CREATIVE HI-TECH OPAL GLASSWARE
HEALTHY LIFE EXCELLENT QUALITY

Five Advantages of Opal glass Kitchenware

Creative Hi-tech Material

After fired by 1500°C, cooled and solidified, natural quartz sand turns to be non-crystalline inorganic substance, it is so strong that can stand collide, no corner & edge breakage and no crack. Compared with normal porcelain, it is lighter, thinner and more durable. It is recycled and environmentally-friendly

Durable

Impact resistance, it can resist the scratching by knife & fork. It is as bright as new after long time using.

Harmless (No Lead & Cadmium)

Thermal shock resistance is more than 120°C. Natural non-crystalline quartz sand doesn't contain any lead or cadmium. The colour and glaze are soluble in the glaze after being fired, so no fading would happen.

Easy for Cleaning, No Detergent Residual

The surface has no pore, so it is easy for cleaning. Minimize the use of detergents. No residual, be healthier.

Wide Range of Applications

suitable for microwave, dishwasher, sterilizer

Range Of Applications:

Microwave Safe

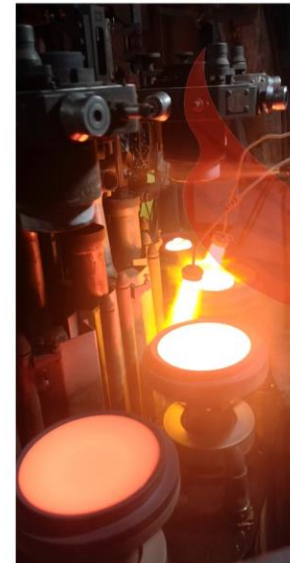

Sterilizer

Dishwasher

Daily Production Capacity

300,000 PCS

Easy For Cleaning

No pore on the surface. Minimize detergent. No residual.

Harmless Patterns

Say no to heavy metals.

More Environmentally-friendly

The raw material is quartz sand which doesn't contain any heavy metals. It can be recycled.

The production is carried out day and night to offer top quality tableware constantly. Daily production capacity of various high-grade opal glass is about 300,000 pcs.

>> High Borosilicate Glass series

Advantages:

1. After fired by 1700°C, cooled and solidified, natural quartz sand turns to be non-crystalline inorganic substance. It is so strong that can stand collide, no corner & edge breakage and no crack and environmentally-friendly.
2. The expansion coefficient is one third of that of normal glassware, the min cold resistance is -20°C, and max heat resistance is 400°C. The high and low temperature of the product is measured by SGS and CNAS.
3. The water and acid resistance of this high borosilicate glassware reaches the international level 1 standard and the alkali resistance reached the international level 2 standard.
