

XT40

人性设计，舒适驾驶

Humanized Design & Smooth Driving

加大的驾驶操作平台、宽厚的靠背配有两个扶手，充分体现了人性化设计理念。

Big operating platform, wide back rest with arms, all these features are humanized design.

牵引

可操作牵引机构，不用驾驶员下车即可操作，提高工作效率。

Towing

Remote unlocking of the coupling allows the operator to hitch and unhitch the trailer without leaving the operator platform, which improve efficiency.

电池侧位装卸

电池侧位装卸，有效减少更换电池时间，提高工作效率，对工作强度较高的工况更甚。

Side Battery Roll-out

Side battery roll-out system shorten the time of battery replacement, which improve working efficiency, especially for intensive working.

再生制动

可产生高效强烈的制动力、制动距离很短、弥补纯机械制动由于刹车片磨损造成的刹车效果不好的情况。

Regenerative Braking Function

With regenerative braking function, braking force is strong, braking distance is short, there is no wear and tear of brake block as pure mechanical brake, so, the braking effect is always good.
