

# CROSS-COUNTRY FORKLIFT

## PRODUCT ADVANTAGES

+Articulated steering +Steel tyre +Wheel deceleration and heavy cast steel bridge +Engineering version luxury cab

## **MORE RELIABLE FORKLIFT**

## BETTER MATERIAL

Made of manganese steel, not easy to deform or break

## **STRONGER MOTIVATION**

Four-wheel drive means a substantial increase in handling efficiency

## ENERGY-SAVING AND FUEL-SAVING

Compared with other forklifts, the <u>average</u> fuel consumption is lower

## STRUCTURE

SANDING GROU

SANDING GRO

### LED LIGHTING

Equipotential matrix arrangement, increase light concentration and brightness

Fully tempered glass on all sides, wide field of vision, sport suspension seat, no fatigue at work

### BOLD CHAIN

Upgraded lifting force, not easy to break, strong bearing capacity

LUXURY CAB

#### EXCELLENT MATERIAL

One-piece molding, forged forks, long service life, not easy to deform/break

#### **BRAND ENGINE**

Stronger power and stable performance

#### **ANTI-SKID TIRES**

Guizhou Qianjin brand steel wire tires, fourlayer steel wire wrap, anti-wear and puncture-proof

### HYDRAULIC SYSTEM

Imported hydraulic system, fast working speed, durable
