

ZDTD-130 Economical Folding and Bagging Machine for Clothes

Product Introduction

An economical folding and bagging machine for clothes, machine features: small size, save space, cost-effective, but high efficiency. One machine require 1 or 2 operators, can finish daily output 5000 pcs.

The machine realizes the continuous operation of automatic folding, bagging for batch garments, which improves the standard of clothes folding and efficiency of packing, reduces labor costs. Suitable for small and medium-sized garment factories.

Machine efficiency: 450-600 pcs per hour, daily output 4000-5000 pcs in 10 hours, with 1 or 2 workers.

Applicable clothes:

T-shirt, Polo shirt, thin jacket, eisure shirt and most summer clothes and thin winter clothes.

Applicable polybags:

PE/PP/OPP envelope opening polybag, width range of bag : 23~38cm;

Not applicable to flat opening polybag, folded opening polybag.

Applicable Clothes

Not applicable: chiffon or silk clothes, clothes with too much accessories, thick overcoat, down jacket, and thoes clothes not easy to fold manually.

Machine Function

1. Folding: Automatic folding different kinds of clothes.
2. Bagging: Automatic packing the folded clothes into the bags.
3. The clothes folded length and width can be adjusted on machine as needed.
4. Control by touch screen , simple and fast operations.
4. Machine can detect the length of each clothes intelligently, when clothes size is different, machine will identify and adjust the first folding length automatically, to ensure the uniform folded size. Means different size of clothes can be folded into same size and packed into same bags.
5. Machine will calculate the number of completed pieces automatically, easy to know the daily output. .
6. If paperboard or paper is needed inside clothes, place it at the same time when place clothes manually.

Machine Advantage

1. Simple, small space, cost-effective, but still with high efficiency.
2. Simple adjustment, easy operation.
3. Electrical and pneumatic components are imported renowned brands.
4. Machine runs with high efficiency and stable performance.
5. Parameter datas for different clothing can be set and saved for easy to switch.

PRODUCT PARAMETER				
Item No.	Minimal width of garment	Maximal width of garment	Minimal length of garment	Maximal length of garment
ZDTD-130	350 mm	900 mm	400 mm	800 mm
	Minimal width of folded garment	Maximal width of folded garment	Minimal length of folded garment	Maximal length of folded garment
	200 mm	380 mm	200 mm	400 mm
	Minimal size of polybag	Maximal size of polybag	Efficiency (pcs/hour)	Seal by Machine
	L280*W230 mm	L500*W420 mm	600 pcs/hour	No
	Voltage	Air pressure	Power	Measurement
	Single phase 220V	0.6 MPa	0.8 kw	1840*1050*1150 mm 880*550*1080 mm
