

PMTD-5203S Automatic Folding Packing Machine Special for Zipper Bags Packing

Product Introduction

A pioneering folding packing machine special for zipper bags packing. It's the unique patent of Lingchuang. Machine solves the problem that the zipper bag can not be opened and packed automatically in the past.

Machine realizes the continuous operation of automatic folding, automatic opening of zipper bag, automatic bagging clothes, automatic pressing and sealing the zipper bag, which improves the standard of garment folding and efficiency of packing, greatly reduces the labor cost, improves the intelligent and automatic level of garment factory. Suitable for all major garment factory.

Machine Efficiency: 450-600 pcs/ hour, daily output around 5000 pcs in 10 hours, with just 1 worker.

Applicable clothes:

T-shirt, Polo, round collar hoody, hoodie, jacket, casual shirt, thermal underwear, sweater, thin coat ect.

Applicable polybags:

PE/PP/OPP zipper opening polybag, width range of bag 20-42cm.

Applicable Clothing

Machine Function

1. Folding: Automatic folding different types of thin and thick clothes.
2. Bagging: Automatic packing the folded clothes into the bag.
3. Sealing: Automatic pressing and sealing the zipper bag.
4. The clothes folded length and width can be adjusted as needed.
5. Machine can detect the length of each clothes intelligently, when clothes size is different, machine will identify and adjust the first folding length automatically, to ensure the uniform folded size. Means different size of clothes can be folded into same size and packed into same bags.
6. Machine will calculate the number of completed pieces automatically, easy to know the daily output.
7. If paperboard or paper is needed inside clothes, place it at the same time when place clothes manually.

Machine Advantage

1. Control by touch screen and computer , simple and fast operations.
2. Machine manufacture with advanced and patented technology of Lingchuang.
3. Electrical and pneumatic components are imported renowned brands.
4. Machine runs with high operation efficiency and stable performance.
5. Parameter dates of different type clothes can be saved for easy to switch.

PRODUCT PARAMETER				
Item No.	Minimal width of garment	Maximal width of garment	Minimal length of garment	Maximal length of garment
PMTD-5203S	350 mm	900 mm	400 mm	800 mm
	Minimal width of folded garment	Maximal width of folded garment	Minimal length of folded garment	Maximal length of folded garment
	180 mm	380 mm	200 mm	400 mm
	Minimal size of polybag	Maximal size of polybag	Efficiency (pcs/hour)	Seal by Machine
	L280*W200 mm	L520*W420 mm	600 pcs/hour	Yes
	Voltage	Air pressure	Power	Measurement
	Single phase 220V	0.6 MPa	1.2 kw	5700*1050*1500 mm

(The parameters may change a little after adding the optional function.)
