

PMTD-4350BK Multifunctional Folding and Packing Machine for Suit Clothes

Product Introduction

A multifunctional folding and packing machine mainly for suit clothes (tops+pants). Machine realizes the continuous operation of automatic folding, bagging and sealing of batch suit clothing. Also suitable for multiple clothes stacking, bagging, or single-piece clothes folding and packing continuously. Machine improves the standard of clothes folding and efficiency of packing, reduces labor cost. Apply to most of garment factories.

Machine Efficiency: 450-600 pcs or 300 sets per hour, daily output 6000 pcs or 3000 sets of suit clothes.

Applicable clothes:

School uniform set, work clothes, sport suit, leisure wear set, thermal underwear suits, etc.

Single T-shirts, Polo, sweatshirt, round collar hoody, jacket, pants, etc.

Applicable polybags:

PE/PP/OPP envelope opening polybag, width of bag 26-42cm;
Not apply to flat opening polybag, folded opening polybag.

Applicable Clothing

Machine Function

1. Folding: Automatic folding different types of clothes.
2. Stacking: Automatic stacking upper clothes+trouser, or multiple clothes.
3. Bagging: Automatic packing the multiple clothes into the bag.
4. Sealing: Automatic sealing the bag.
5. The clothes folded length and width can be adjusted as needed.
6. Machine can detect the length of each clothes intelligently, when clothes size is different, machine will identify and adjust the first folding length automatically, to ensure the uniform folded size. Means different size of clothes can be folded into same size and packed into same bags.
7. Machine will calculate the number of completed pieces automatically, easy to know the daily output.
8. If paperboard or paper is needed inside clothes, place it at the same time when place clothes manually.
9. The parameters of different types clothing can be saved for easy to switch.

PRODUCT PARAMETER				
Item No.	Minimal width of garment	Maximal width of garment	Minimal length of garment	Maximal length of garment
PMTD-4350BK	350 mm	900 mm	400 mm	800 mm
	Minimal width of folded garment	Maximal width of folded garment	Minimal length of folded garment	Maximal length of folded garment
	230 mm	380 mm	200 mm	400 mm
	Minimal size of polybag	Maximal size of polybag	Efficiency (pcs/hour)	Seal by Machine
	L280*W260 mm	L500*W420 mm	600 pcs/hour 300 sets/hour	Optional
	Voltage	Air pressure	Power	Measurement
	Single phase 220V	0.6 MPa	1.2 kw	5350*1050*1500 mm

(The parameters may change a little after adding the optional function.)
