Faucet Mixer

COMPANY PROFILE

[Wenzhou Honglian Sanitary Ware Co., Ltd.]Original name Wenzhou Haocheng Sanitary Ware Factory, was established in 2004.

Is a professional manufacturer of various high-end faucets, basin faucets, bathroom faucets, kitchen faucets, bathroom accessories, etc. The factory is located in Wenzhou City, Zhejiang Province, China.

The company adheres to the principle of customer first, honesty and quality first, and is deeply trusted and supported by customers at home and abroad.

Our nearest ports are Ningbo Port and Shanghai Port.

We have EU CE and RoHS certifications, and passed ISO 9001:2015. The quality is guaranteed for 5 years without water leakage.

We use gravity casting equipment to ensure the density and thickness uniformity of the pipe. HZCH high-end processing equipment ensures the processing accuracy and service life of the product. Advanced environmentally friendly electroplating technology eliminates secondary pollution and provides you with purer water, which can be refreshed even after long-term use. Our design combines European advanced conceptual design, fully considers consumers, and focuses on consumer experience.

Existing export countries: Europe, America, Asia, etc. Our company is mostly OEM and ODM, which can be customized through drawings, samples, packaging, LOGO customization, etc.

Comfortable

All products first consideration is the humanization design, perfect use of human body engineering, let you use be just perfect, whether it is sprayed with water, wash, wash, shower or in the shower room from all directions, are all adjustable or accurate as you use the ideal requirements.

Patent technology

Now corporation has tens of appearance, utility model patents and invention patents, which have made outstanding contribution for the technology innovation of sanitary ware and the development of home furnishing culture.

Green technology

Corporation is committed to environmental protection, energy saving technology in the use of sanitary ware, and widely adopted the use of sanitary industry.

Constant flowing technology

Ylisa constant flowing when the water pressure exceeds a threshold value, still maintain a constant flow rate, effective water saving.

Shinning plating technology

Deep and uniform plating showed smooth mirror effect and with long time shining, it can also effectively dirt and acid & alkali resistance, this is ensure years of use is still shining like a sparkling star.

ECO water saving technology

Ylisa water-saving technologies can make less water to achieve the most beautiful flow understanding, Ylisa products have best effect of water saving.

Thermostatic technology

Ylisa Thermostatic Faucet can reach preset temperature immediately. The advanced check valve applied on this design prevents mixing up of hot and cold water, and provides you a safe and comfortable experience.

Mute technology

To create a quiet space, Ylisa tap mute technology effectively slow down the water in the process of release, flow noise, let every open is very wonderful experience with water.
