

YIXING GUANYU NEW MATERIALS CO.,LTD

COMPAY PROFILE

Yixing Guanyu New Materials Co.,Ltd is located in Yixing City, Jiangsu Province, which was founded in 2018. Its predecessor is Suzhou Guanyu Plastic Technology Co.,Ltd established in Suzhou in 2013. It has abundant resources, convenience transportation (about two hours riding away from Shanghai) and enough electric. There is about 5000 square meters of factory area. It has fixed asset about 10,000,000 RMB, more than 50 employees, 4 full-time managers, 4 engineers and 3 technicians.

The main products have PP Corrugated sheet, Cardboard Boxes,PP Corrugated boxes, Medicine boxes, advertising boards, display racks, logistics enclosures, electronic turnover boxes, industrial parts boxes, format linings/pads, household storage boxes, heavy equipment logistics boxes, tobacco and alcohol packaging boxes, various injection molded parts/boxes, Integration of internal and external warehousing, logistics and packaging such as PET plastic trays and blister trays.

The products are sold all over the world, such as America, Canada, Europe and Australia. The year production value reaches to 6 million USD, which is one of the main adverting and packaging material manufactures in Jiangsu province.

The company follows the policy customer supremacy, the quality-first and serve in a top-grade aim, developing new productions all the time, expanding new field. The equipment of our company is good, the technique is advanced.

Welcome old and new customers hold hands together for exploring and developing.

A Basic Application Guide to Corrugated Plastic Sheet

If you're just getting started in the corrugated plastic business and have questions about it, this base guide is for you. We'll answer the basic questions about what is corrugated plastic, and what are the applications.

Corrugated Plastic sheet: What is it?

Corrugated plastic sheet, also known by the trade name Coroplast™ is a corrugated plastic substrate made from thin polypropylene plastic sheeting. Think of it as corrugated cardboard made from plastic. It comes in various shapes, sizes, and colors, with the most popular form being 48"x96", 24" x 18" white.

Application

Corrugated plastic sheet is widely used in advertising, electronics, machinery, light industry, postal, food, medicine, home applications and other industries. Normally they can be used as indoor & outdoor advertising board, yard signs, turnover box, protection base for decoration room etc.

SIGNBOARD

PP Corrugated Plastic signs are a cost-effective visual communications solution, ideally suited for a wide variety of indoor and long-term outdoor uses. Our corrugated plastic yard signs are the most popular form of Temporary Signage. Used for events, elections, building site signs, roadside and more. They are a low cost option that get less expensive the more you order.

- ◎ Lightweight
- ◎ Corona treated. We give our customers the option of printing their own sheets. If you choose this option, we will give the sheets a corona treatment to ensure they are

well prepared of printing.

- ◎ UV Protection. Our sheets can be produced with a UV protection. This will extend the life of the sheets and their print work when exposed to the sun.

YIXING GUANYU NEW MATERIALS CO.,LTD

- Easy to cut,route,die-cut and finish.
- Standard stocked sizes and colors.

Corrugates plastic signs are commonly used for:

- Trade show signs
- Builders/Construction site signs
- In-store retail signage
- Advertising on a shop front as an “Above the Door” or “Store Window”display
- Real Estate Boards
- General Signage

YIXING GUANYU NEW MATERIALS CO.,LTD

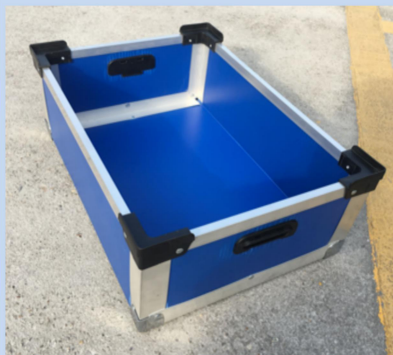

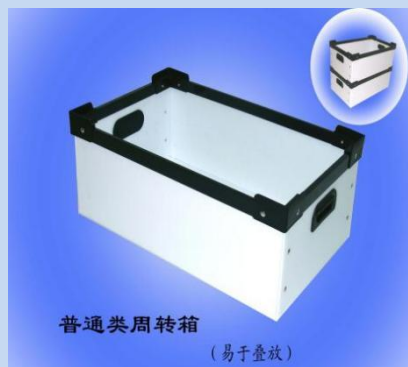

- Tips:** ▲ Optimum using time of signboard is 6 to 8 months after delivery. Storage too long, corona treatment will fade and the printing effect will be affected.
- ▲ Don't directly touch the surface of signboard with your hands without wearing gloves. If not, after printing, fingerprints may appear on the board.
- ▲ The storage environment should be as dry as possible to avoid boards moisture.

PRODUCT PACKAGING

PP Corrugated Boxes

There are many advantages of using corrugated sheets as a packaging material for your products. A few of reasons why our customers choose corrugated sheet packaging include the fact that it is waterproof, strong, printable, lightweight, folding and reusable.

✂ Skeleton Corrugated Boxes

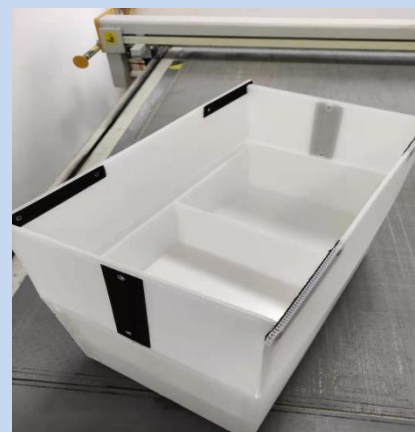

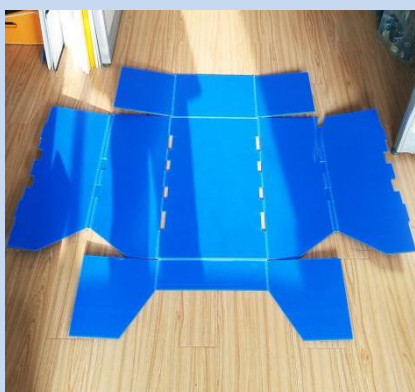

ADD: NO. 9, XINGUAN WEST ROAD, GUANLIN TOWN, YIXING CITY, WUXI, JIANGSU, CHINA

YIXING GUANYU NEW MATERIALS CO.,LTD

✂ Product Dividers

Product Dividers are used to keep products in place or prevent them from getting damaged. They are also an efficient way to place more goods in a box.

✂ Corrugated Packing for Fresh Food

ADVANTAGES

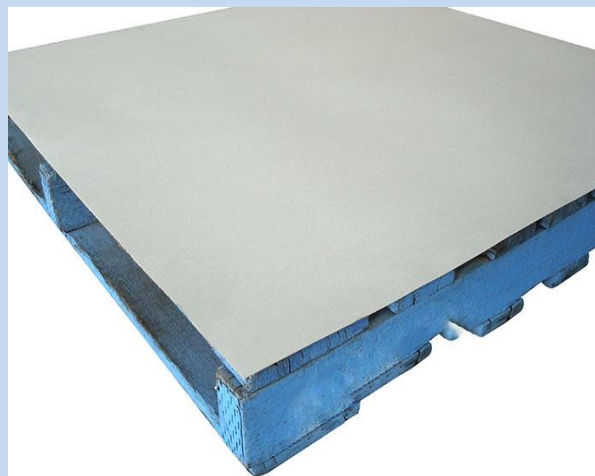

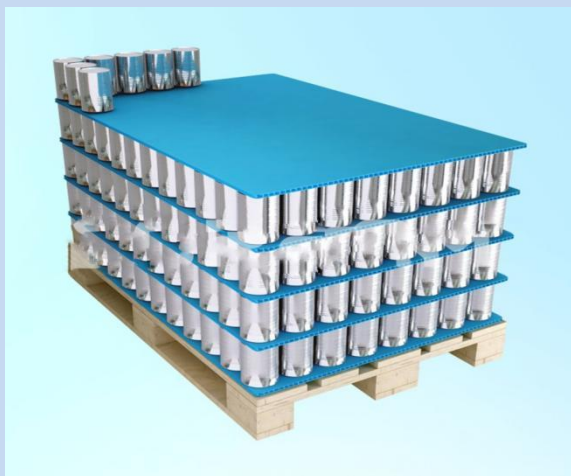

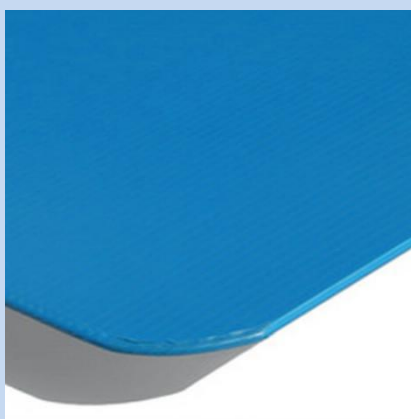

- ◎ Robust The boxes are able to withstand the harsh "field" environment.
- ◎ Mildew Resistant Unaffected by moist and humid conditions.

YIXING GUANYU NEW MATERIALS CO.,LTD

- ◎ Water proof Ideally suited to Hydro-cooling, refrigeration and wet packing areas.
- ◎ Washable Can be steamed cleaned and sterilized for re-packaging.
- ◎ Presentation The agricultural containers can be printed for point-of -sale and export marketing opportunities.
- ◎ Reusable package Ideal for closed loop systems offering BIG savings.
- ◎ Easy storage Stores flat, but easily assembled as required, saving on storage space.
- ◎ Recyclable after use Polypropylene waste has value for recycling to new products.
- ◎ Stack or nest Styles include stackable or nestable for storage and transport.
- ◎ Slip sheets We make food contact sheet suitable for slip-sheets or lining steel bodied bulk bins.

※ Bottle/Pallets Layer Pads

Logistics companies use our pallet partitioning in order to divide their products, keep them from being damaged, and to stack their product in a more stable manner. Let us know what pallet size or logo you require, and we'll be happy to make a sample.

※ Temporary Floor Protection

Corrugated sheets are designed to provide reusable temporary floor protection for many fixtures and surfaces during construction. The sheets offer excellent surface protection for surfaces like concrete, tile, vinyl and wooden floors. The sheets also offer excellent surface protection for walls, corridors, glass windows, doors, counters and cabinets during construction and renovation. The sheets are easy to apply and cost-effective. We can customize the sheets to any requested size or color. The sheets are also

available in a transparent version, which will not block the daylight when placed on glass.

※ Recycled Bins

Corrugated recycled bins are used for exhibitions and events, as well as in hospitals and schools. They are easy to fold, lightweight, hygienic, and low cost. The recycle bins are fully customized.

✂ Tree Guards

Corrugated Sheets are waterproof and bug-resistant, making them perfect to use as a base material for a wide variety of agricultural applications. For instance, the sheets are used to product tree guards and other forms of protection for plants.

✂ Flowerpots

Corrugated Sheets are bug-resistant and waterproof. This makes it an ideal material to produce flowerpots. The pots can be used on events, or just as a low-cost original flowerpot for your garden.
