

Product Name	JH02 Personal desk cooling Fan Air purifier
Materials	ABS+PE+HEPA filter
Operating Voltage	DC5V/1.0A
Rated Power	2W
Negative ion concentration	≥800W, test distance 100mm
Sensor	PM2.5 particulate matter
Working mode	automatic, manual, sleep
Timing:	0-12 hours
Maximum noise:	about 48dB
Control method:	three wind levels
Product size:	127*88*198mm
Product net weight:	0.3kgs
Color box size:	132*90*207mm
Outer carton size:	475*417*437mm
NW/ GW:	13.0/14.2kgs
Qty/ Ctn:	30pc
Style/color:	white
Filter type:	H13 high efficiency and low resistance composite filter
Advantage	
1. HEPA+ negative ion double purification to create healthy breathing zone	
2. HEPA filter consumable, easily replaced, effectively filter dust and particles in the air	
3.The front fan frame can be easily disassembled to clean the fan blades.	
4. Adjustable base to blow up and down, blowing at a suitable angle is more comfortable	
5. Negative ion purification makes the air fresher.	
6.Soft and comfortable air,It can choose to add a purification cover to purify,	
7. Remove the purification cover to blow alone, and the wind is more powerful.
