

Multifunctional Emergency Products

ABOUT US

Company profile

Founded in 2008, Jiayin nuoxin/Ewong (Shenzhen) Technology Co., Ltd. is a modern enterprise integrating R&D, manufacturing, production and product terminal.

The plant is located in Xinwei Town, Yiyang District, Yizhou City, covering an area of 6700 square meters. It has a complete product R&D team, mold manufacturing, injection molding, assembly line, quality inspection and other departments. The company's predecessor was a service-oriented enterprise mainly engaged in providing OEM and ODM production and processing for European and American audio brands. The company has established strategic partnership with Altec Lansing, Belkin and other famous American brands for many years, and has always provided high-quality processing and production services for brands. After more than ten years of solid craftsmanship, the product quality and service have been highly praised and trusted by users.

In 2018, Jiayin nuoxin (Shenzhen) Technology Co., Ltd. was optimized and upgraded to carry a high-tech enterprise integrating independent research and development, intelligent manufacturing, production and sales, and improve the technology research and development team. The company's main products are audio multi-functional emergency products. The company's products focus on solving the user's experience in terms of R&D and design. The product features waterproof, fall proof, intelligent, concise, sound quality, portability, and can escort users in case of geological disasters and emergencies in any case! Bring users the best experience, high-quality, intelligent and other 3C products forward; The product adopts advanced two-color and two-material technology to subvert the traditional single color shell materials spraying process; It can not only

be waterproof, fall proof and dust-proof at the same time, but also better solve the harmful substances generated by spraying in other processes, and the product is more environmentally friendly. Solve the problems of hand feel, texture and environmental protection. The color is always as fashionable and bright as before. All products of the company are private models and have the protection of intellectual property rights. The company's main business includes the following two items. First, it carries the product customization from R&D to finished product shipment, and integrates multiple processes to complete the mission of creating and manufacturing. 2、Undertake product research and development, mold manufacturing, two-color and two-material injection molding, product assembly. Focusing on the mold development and complex process research of two colors and two materials, devoting to the professional production of the industry, constantly pursuing the development of innovative technology and the craftsman spirit of pursuing perfect quality and excellence are the unswerving faith and direction of Jiayin nuoxin. As an export trade enterprise, the factory has successively passed the ISO9001 quality management system and smeta certification, and its products have obtained the certification of China Electronics Industry Association and the certificate of Guangdong high-tech products. The company's products are also supported by a number of product innovation patents. Jiayin nuoxin has always pursued excellence, a down-to-earth craftsman spirit, and the idea of carefully managing the enterprise, so as to provide customers with high-quality products and services

Factory Building B, Production Trail Industrial Park, Xinxu Town, Huiyang District, Huizhou City

.

Advantages and scale

Have 2 SMT Automatic Patch Production Lines.

We have the qualifications of ISO 900 and SMETA.

More than 20 products are patented.

The factory covers an area of 6170 square meters.

Has 10 senior engineers and designers ID, IE, mold optimization, from the appearance to product structure, optimization, is a strong technical team.

Six Production Lines of Fully Automatic Production Equipment.

Industry and trade integration, give you one-stop service.

Corporate culture

Since the company was founded, we have been adhering to the enterprise spirit of dedication and persistence.

In the field of mold and injection molding, our high-efficiency and quality manufacturing has impressed world-wide enterprises.

In the future, we will continue to provide customers with diversified product design, manufacturing and production integration services with the attitude of sustainable management and establishing a century-old enterprise. We will continue to expand our vision globally, and strive to be the technological leader of China's consumer electronics and injection molding industry.

- ★ Quality services Customer first
- ★ Pioneering spirit High-quality
- ★ Empressment Keep improving technology
- ★ Simplification Keep improving management system

Our Services

Integrated Solution of Mold, Injection Molding and Surface Treatment

Mould manufacturing

Mould from R&D to manufacturing, one-stop service.

Precision in injection

High precision in producing equipment, excellent production technology.

Optimized design

Our engineering department will involve in design, in order to reduce customer's design fee

Surface treatment

Assort with plastic cover

Logistics warehouse

Store together with home-reliever service

Material recycle

The material will collect and recycle

Production and manufacturing

Mould manufacturing:

Our company has a number of excellent design talent employees. We provide customers with a full range of design services.

- Precision CNC machining center
- 4 CNC machines
- 2 high speed graving machines
- 6 high precision spark machines

Injection molding:

The company has 21 sets of precision injection molding equipment injection molding machine.

- 8 high-precision injection molding machines
- 6 double shot molding ;
- 2 Vertical machine

Automatic assemble workshop:

15 assembly lines,
8 automatic STM machine

DF585D DAB/FM/BT Europe Radio Speaker camping light & Torch

DF585WB NOAA AM FM BT USA Radio Speaker tent lamp & Torch

DF585 AM FM BT radio Multi-purpose Speaker camping lamp & Torch

Radio, Flashlight, night light, camp light, SOS, Power bank, Solar Waterproof hand crank Bluetooth speaker

FM AM online Life Walkman

Strong signal, anti-interference signal

- * Bluetooth speaker
- * AM FM DAB NOAA radio
- * Camping lamp
- * Flash light
- * 5000MAH power bank
- * SOS alarm
- * IPX6 waterproof
- * Solar panel charge
- * USB fast charge
- * Hand crank power

FM: 87.5-108 MHz

AM: 760-1062 KHZ

IPX6 waterproof outdoor multi-functional camping lamp

Features

- * **DAB/FM/AM/NOAA Emergency Radio** -- as optional for different countries
- * **Portable waterproof Camping light**--Good for indoor outdoor
- * **14W Bluetooth Speaker, EQ model, TWS,alt ,bass, stereo,wonderful**
- * **5000 mAh Power Bank, Polymer lithium** battery, Prevent explosion
- * **SOS Alarm , Clock/time/date**--Good for outdoor sports,camping
- * **Powerful Flashlight** --very strong and power lighting
- * **Thermometer** ---sensitive and accurate temperature detection
- * **Home /reading light**--3 lights: White light 6000K, Warm light 580K, Warm+white
- * **Solar Panel charge** --Built in solar panel, and external panel optional
- * **Hand Crank Manual power generation**--Generate electricity for emergency
- * **Fast USB Charging** --11.5Ah/5V fast charge, big power bank
- * **AM/FM DAB/NOAA radio**--Home /outdoor essentials, instant remind natural disaster
- * **IPX6 Waterproof, dustproof, fall-proof**, military material
- * **HD LCD panel:** Time/clock/date/year setting/radio channel/Power/Mode/Volume
- * **High quality,durable**,Multi-functional emergency supplies
- * **Bluetooth 5.0** for the transmission it is very stable signals
- * **System language:**English, Espanol,Deutsch,Francais,Italiano,Suomi,Daansk,Polksi

Specification

Bluetooth Version: AC6951 V5.0

High power double horn

Product Size: 174*55*79MM

Speaker Unit: 45mm Output Power: 14W

Audio Mode: DAB+/BT/FM AM NOAA WB (Optional)

Battery: 5000mAh High-efficiency polymer battery

Bluetooth Distance: 10M Play Time: about 15hours

Case Material: ABS+PC+TPU

5000mah Polymer lithium battery
