---

Application scope: Plain, coteau, soft field.

Function: Ridging, Digging, Fertilizing, forage stem planting, etc.

Features:

1. Multifunctional machine. It congregates many functions such as digging, planting, fertilizing, covering soil on one single machine. It can process the complete functions of forage stem planting.
2. High working efficiency. It has working efficiency of 0.3 hectare per hour, which is 10 times comparing with human labor.
3. Lower cost. It can process the complete functions of forage stem planting, which make the cost much lower than by human labor.
4. Adopt high technology. It adopt hydraulic system technique which is much more reliable and can be adjusted very easily.

Note: Put the forage stem into the cutting system manually.

## Main technical specifications

| Model          | 2BFZ-2       |                           |                           |
|----------------|--------------|---------------------------|---------------------------|
| Planting rows  | 2            | Volume of fertilizer tank | 200 kg                    |
| Seed form      | whole stick  | Motive power              | ≥100                      |
| Row space      | 800-1200mm   | Overall dimension         | 2700×1850×1900 mm         |
| Ditch depth    | 200-300mm    | Seed capacity             | 800 kg                    |
| Seed length    | 320-380mm    | Planting density          | 2 piece/m/row             |
| Suitable slope | ≤10%         | Way of fertilizing        | Scraper discharge(adjust) |
| Productivity   | 0.2-0.3 ha/h | Weight                    | 1000 kg                   |

Payment term: T/T 50 %Advance, 50 % before loading ship

Delivery lead time: 30 days

Load: 4set/ 20 Foot Container

Validity: 45days

Packing: Nude

Note: Cost of installation and technical support/training extra.
