Size:	S / M / L / XL
Box:	21.0cm*12.2cm*6cm
Carton:	315cm*253cm*230 cm
20 Feet Container:	1,300 cartons / 1,300,000 pcs
40 Feet High Container:	3,600 cartons / 3,600,000 pcs

*Provide the safest medical supplies for human health,
be a first-class medical supplies enterprise.*

Ultra-thin Nitrile Glove

Description :

This gloves are designed for medical examination and food making. Ultra-thin design makes your hands feel more comfortable when you are working. The chosen color blue is made for easy visual identification. And textured fingertips maintain grip.

- Color: Sky blue;
- Material: NBR;
- Type: Powder free, non-allergenic, non-sterile;
- Design: Curved fingers, textured, beaded cuff;
- Free from plasticiser;
- Safest glove on the market for food manufacturer.

PI Hybrid Surgical Glove

Description :

It is made of polyisoprene.

Polyisoprene is a polymer of isoprene (C_5H_8), which is the main chemical component of natural rubber. Synthetic polyisoprene is a better fit than natural rubber latex for many industries because it offers similar physical and chemical properties, but unlike natural rubber latex, it does not present any latex-allergen concerns.

- Color: White;
- Material: Polyisoprene;
- Type: Powder free, non-allergenic、sterile;
- Design: Curved fingers, textured, beaded cuff;
- Can be used as surgical gloves.

Metal Detectable Nitrile Glove

Description :

These gloves are designed for food processing industry workers as personal protective equipment (PPE) and to aid against foreign object contamination. The chosen color blue is made for easy visual identification. And textured fingertips maintain grip in wet and oily environment.

- Color: Outer blue, inner black;
- Material: NBR;
- Type: Powder free, non-allergenic, non-sterile;
- Design: Curved fingers, textured, beaded cuff;
- High detectability and free from plasticiser;
- Safest glove on the market for food manufacturer.

Biodegradable Nitrile Glove

Description :

It is a perfect glove for those who want to adopt the sustainable approach. Bio-degradable, substantially higher anaerobic biodegradation rate with compared to regular nitrile disposable gloves after disposal into soil. And its excellent degradability makes degradable gloves greatly reduce environmental pollution, improving environmental protection and sustainable development, let's save the world together!

- Color: Green
- Material: NBR/PU
- Type: Powder free, non-allergenic, non-sterile;
- Design: Curved fingers, textured, beaded cuff;
- Low risk solvents and chemicals.

Antimicrobial Nitrile Glove

Description :

Antibacterial nitrile glove are used in medical settings to reduce hand contamination, cross-contamination, and to protect patients and doctors to reduce hand contamination. It can not only protect human health, but also prevent the spread of germs.

- Color: White;
- Material: NBR;
- Type: Powder free, non-allergenic, non-sterile;
- Design: Curved fingers, textured, beaded cuff;
- Kills up to 99.999% of selected bacteria;
- Provides active protection against HAIs (healthcare associated infections) .

Nitrile Glove without Vulcanization and Accelerator

Description :

Nitrile Glove without Vulcanization and Accelerator, can be used in electronics factory. Because it doesn't contain sulfur or any other similar material as normal gloves while producing, this product is non-toxic and safe to use as personal protective equipment.

- Color: White;
- Material: NBR;
- Type: Powder free, non-allergenic, non-sterile;
- Design: Curved fingers, textured, beaded cuff;
- Without sulfur, non-toxic.

Diamond Textured Nitrile Glove -Heavy duty

Product Name	Diamond Textured Nitrile Gloves
Material	100% Nitrile
Color	Orange, Black
Length	Min 240mm
Size	S, M, L, XL
Features	<ol style="list-style-type: none"> 1. Non-sterile, diamond grip textured 2. Beaded and ambidextrous 3. Chemical resistance 4. Food touch safety 5. Powder free
Packing	<p>50pcs/box, 10 boxes/carton</p> <p>100pcs/box, 10 boxes/carton</p>
Shell life	36 months

Natural Latex Gloves

Brand Name	Palmwell
Product Name	Latex Gloves
Size	S.M.L.XL
Stock	YES
Shelf Life	12 months
Material	Latex
Instrument classification	Class I
Product name	Disposable Latex Gloves
Color	Milky White
Weight	3.5-5.5 g
MOQ	100 boxes
Grade	Medical and Industry
Package	100pcs/box, 10 boxes/carton
Application	Nursing , Manufacturing , Repair , Washing , Food Handling ...
Surface	Powder Free , Full Textured
OEM	Acceptable
Features	Waterproof, oil proof, Ultra thick,thickened, elastic fit to skin, more stretch resistance and comfortable to wear, relieve hand fatigue ,Tensile resistance , Touch-screen design

Vinyl Gloves (PVC Glove)

Brand Name	Palmwell
Product Name	Disposable Vinyl Gloves
Size	S.M.L.XL
Stock	YES
Shelf Life	12 months
Material	VINYL
Instrument classification	Class I
Color	Transparent
Weight	4.0-5.5 g
MOQ	100 boxes
Grade	Medical and Industry
Package	100pcs/box, 10 boxes/carton
Application	Nursing , Manufacturing , Repair , Washing , Food Handling ...
Surface	Powder Free
OEM	Acceptable

Feature :

- Puncture & Tearing resistance, thicker clear plastic to avoid tearing and puncturing, high pinhole density , enough stretch for finger flexibility, good grasp ability and Touch-screen design .
