

FEEL COMFORTABLE
AND WARM

Bio particle
heating furnace

Optimum biological particles are healthy and odorless

Using *Pinus sylvestris* biomass pellet fuel, the pellets
burn at high temperature, non-toxic and odorless, and

Pinus sylvestris no coking, special for winter fire

High firepower

No coking

Low ash

生物质机械

Suitable for multiple venues

— •
Customize according to the use
occasion to meet your needs

Bio-particles fuel

New clean energy made from straw, rice straw, peanut shells by advanced processing technology

Full burning
Little smoke

Clean and safe
Convenient for use

The burning of biomass
used is clean and safe
No pollution
— Longze Machinery —

Click ignition, instant heating, rapid heating

When the heating zone reaches the set temperature up to 120m, the machine automatically stops running.

Below the set temperature, the chip system will automatically wake up the machine to make it work normally

稳定节能

采用扇叶式出风口，散热均匀，
密闭设计、进风管道、燃尽率高

FAN TYPE AIR OUTLET IS ADOPTED, WITH UNIFORM HEAT DISTRIBUTION.
CLOSED DESIGN, AIR INLET PIPE, HIGH BURN OUT RATE.
