SUPER STAR DOG (DOG CHEW TOY)

Soft TPR toy body

The soft body of the toy is designed with different shapes and different degrees of friction texture can clean the dog's mouth in an all-round way.

Reinforced cone-shaped friction teeth

Clean the dental calculus, dirt and rice residue on the dog's teeth to protect the dog's dental health.

[Rubbing and cleaning function] The newly designed cone-shaped rub bumps, different shapes of the toy main body rub texture, and different degrees of armor-like rub texture can all deeply clean the dog's teeth when the dog is playing with the toy. It can effectively remove all kinds of food residue, dirt and dental calculus on the dog's incisor, canine and molar teeth, fully protect the dog's dental health, and truly ensure the dog's oral health.

[With dog chew cotton rope design] The toy body is wrapped with an extended cotton dog chew rope, which can not only stimulate the dog's interest in biting, but also protect the toy body from damage caused by the dog's long-term biting. The end of the cotton dog chew rope is equipped with a reinforcing knot, which attracts the dog's interest in playing and makes the dog fall in love with the toy.

[Sturdy and not easily damaged] This is a dog toy that is resistant to biting, falling, and smashing. The armor-like shell is made of high-hardness nylon raw material. The high-elastic body is made of high-toughness and soft TPR, which can be used in large, all kinds of medium and small dogs. It will not be destroyed even if it is used for a long time. But for your dog's health, we recommend that you use it for no more than 20-30 minutes a day.

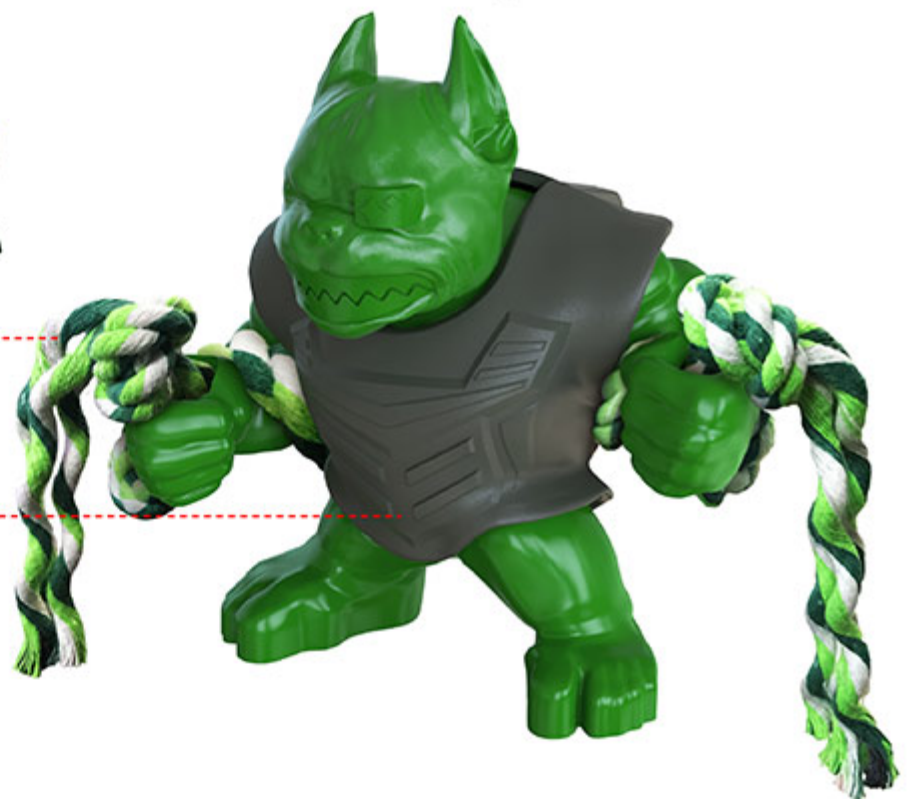

Cotton dog chew rope

It comes with a cotton dog chew rope, which can stimulate the dog's interest in biting and make the dog fall in love with this toy.

Nylon armor shell

The shell is made of high-hardness nylon material, which is resistant to abrasion and bite, and can be used by dogs for a long time.

YPQZGYWJ01

EAGLE SCEPTER DOG TOY (DENTAL CARE DOG TOY)

[Dental care toy] The new eagle head scepter shape design. Different sizes and strengths of zigzag-shaped rub convex points and eagle-shaped texture of various degrees can fully and deeply clean the dog's incisor, canine and molar teeth when the dog is biting and playing with the toy, effectively removing all kinds of meal residues, dirt and dental calculus, fully protect the dog's teeth and oral health.

[Comes with cotton dog chew rope] The tail is designed with a cotton dog chew rope, which is resistant to abrasion and bite, and can stimulate the dog's interest in biting. The cotton rope has a reinforcing knot at the end, which can attract the dog's interest in playing and make the dog fall in love with this toy.

[Tug-of-war toy] The owner holds the eagle's head, and the dog bites the cotton rope to tug-of-war. It can not only enhance the tacit understanding between the owner and the dog, but also improve the dog's physical fitness.

Soft Eagle Head

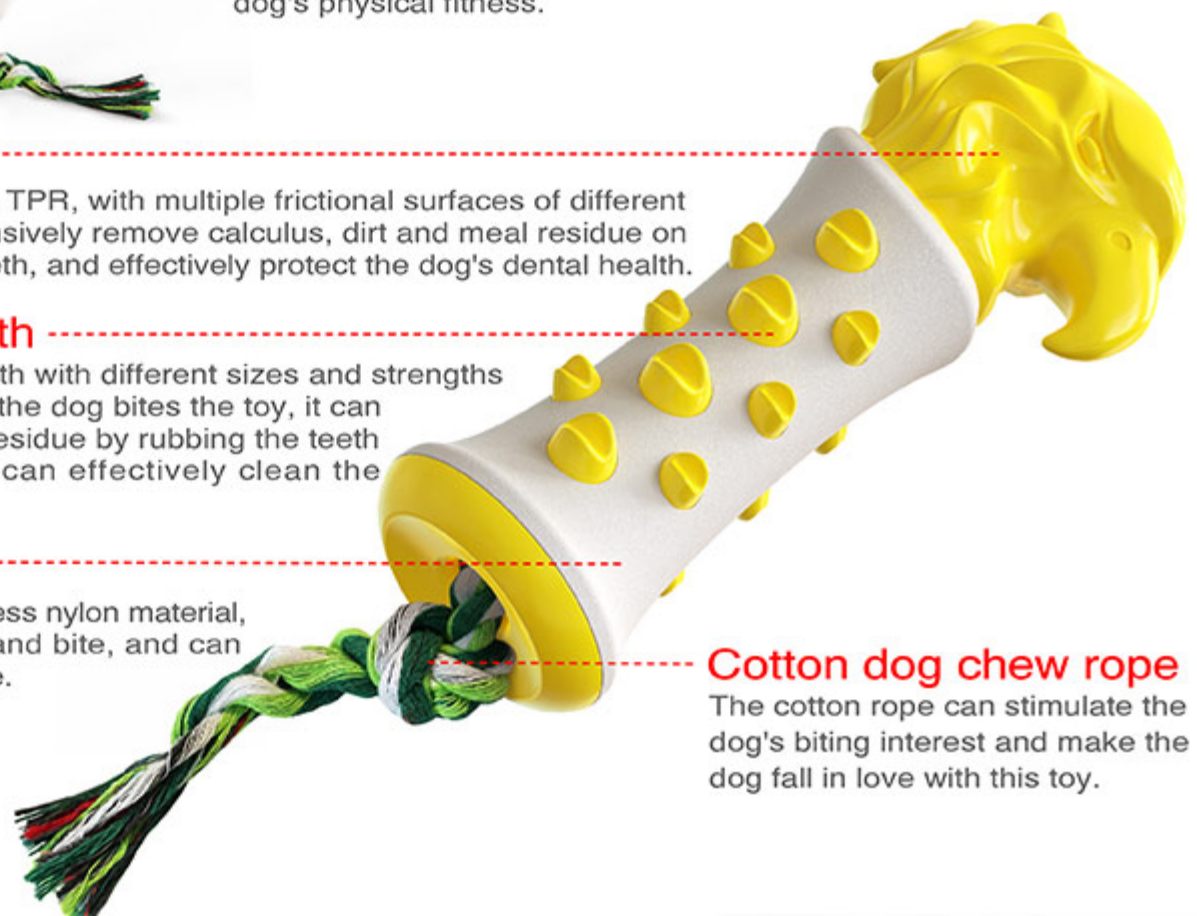

The eagle head is made of soft TPR, with multiple frictional surfaces of different degrees, which can comprehensively remove calculus, dirt and meal residue on the dog's incisor and canine teeth, and effectively protect the dog's dental health.

Serrated rubbing tooth

The zigzag-shaped rubbing teeth with different sizes and strengths are arranged irregularly. While the dog bites the toy, it can remove tartar dirt or dog food residue by rubbing the teeth with the teeth bumps, which can effectively clean the dog's molars.

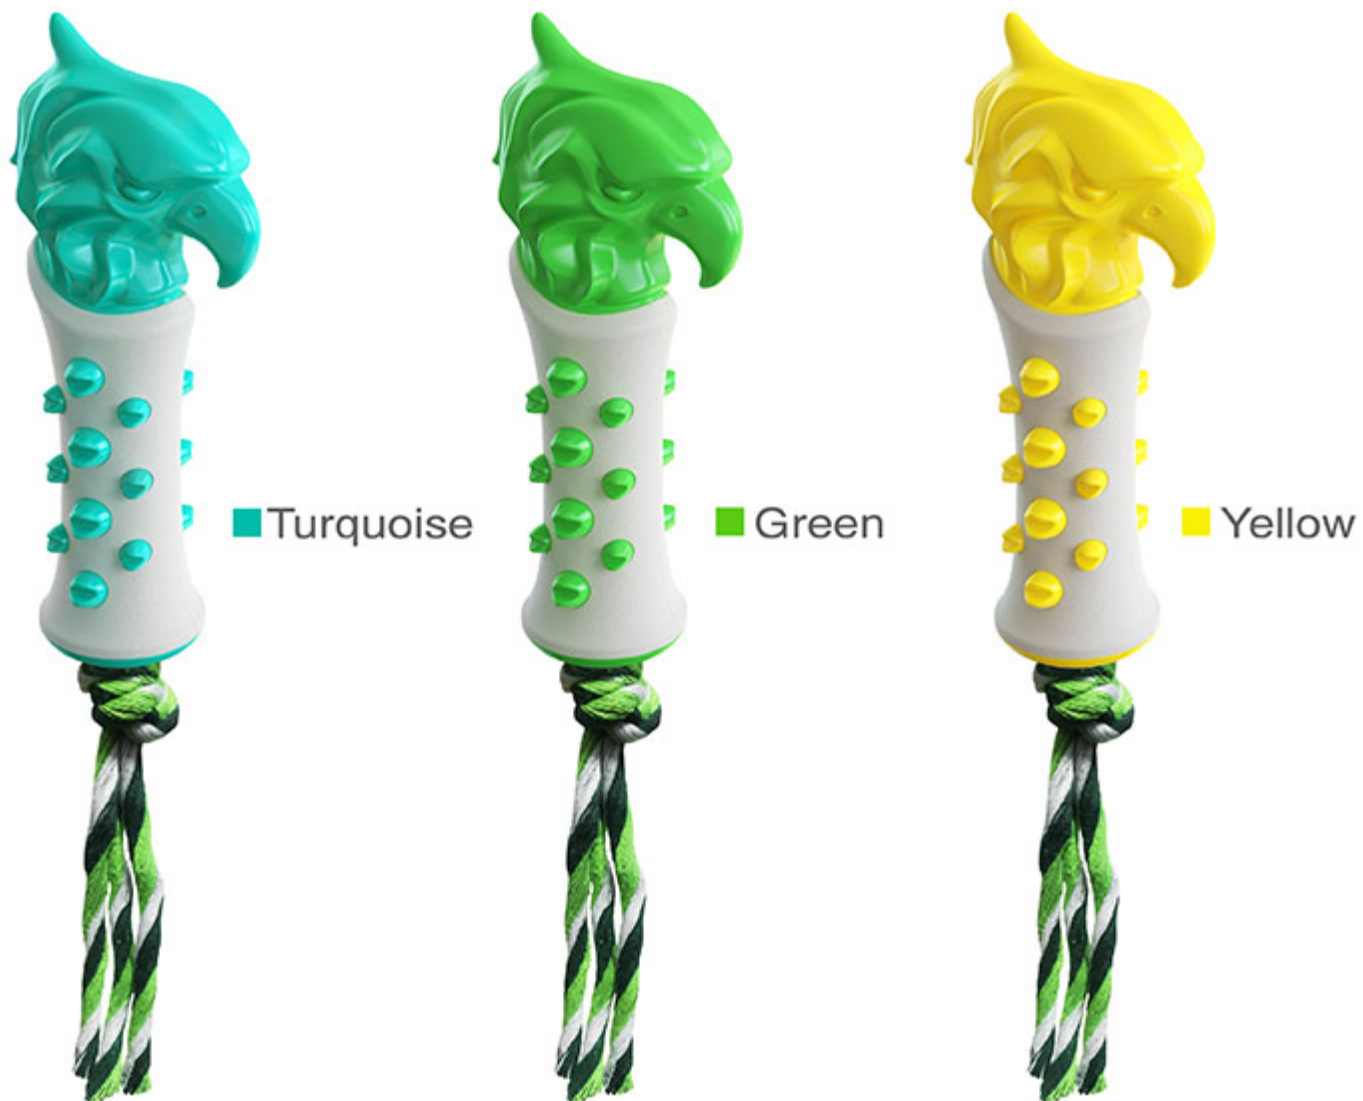

Nylon shell

The shell is made of high-hardness nylon material, which is resistant to abrasion and bite, and can be used by dogs for a long time.

Cotton dog chew rope

The cotton rope can stimulate the dog's biting interest and make the dog fall in love with this toy.

HJTGYWJ01

TURKEY LEG DOG CHEW TOY

[Cooling and quenching thirst toy] Put the toy in clean water, squeeze the top of the toy with your fingers to let the water flow into the body through the hollow holes. Place the toy horizontally in the freezer compartment of the refrigerator for 1-2 hours, then take it out and let the dog lick it to cool the dog. When the toy is heated during the dog's play and bite, the melted ice water will flow out through the hollow hole, which can quench the dog's thirst.

[Dental chew toy] The cute simulation turkey leg shape can attract dogs' desire to bite. The original designed zigzag rubbing teeth, arranged horizontally and vertically, can deeply clean the dog's molars, incisors and canines. Effectively remove all kinds of food residue, dirt and dental calculus on the dog's teeth, and fully protect the dog's oral health.

[Leakage function] After the bone-shaped nylon rod is drawn out, it can be used as a leakage toy. Dog food or snacks can be added to the soft rubber drumstick channel. When the dog bites and plays with the turkey drumstick, the food will be dropped as a reward for playing, which can stimulate the dog's interest in playing.

Hollow hole

Put the toy in clean water, squeeze the top of the toy with your fingers to let the water flow into the body through the hollow holes. When the toy is heated during the dog's play and bite, the melted ice water will flow out through the hollow hole, which can quench the dog's thirst.

Serrated rubbing tooth

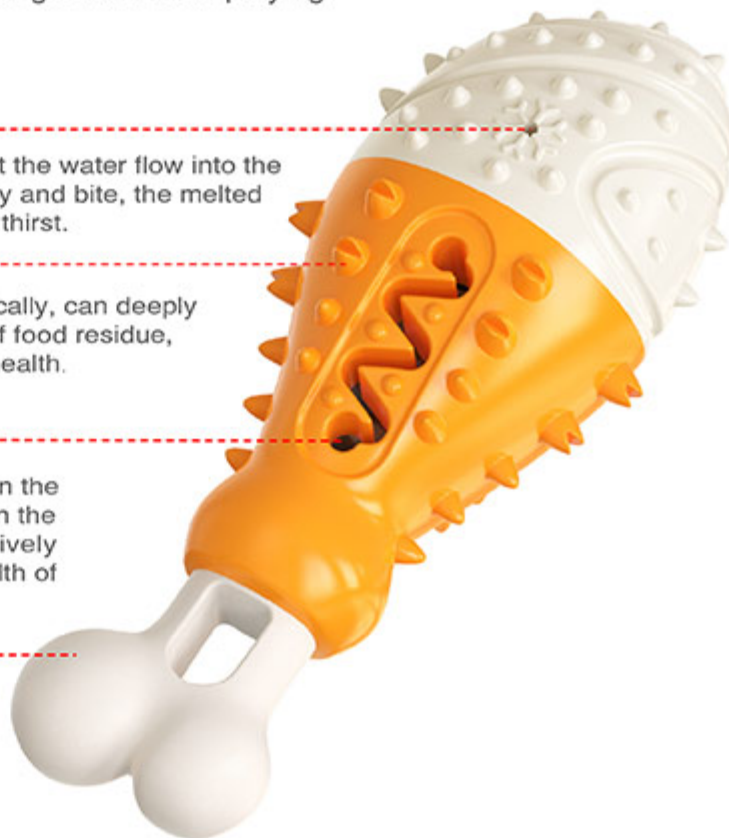

The original designed zigzag rubbing teeth, arranged horizontally and vertically, can deeply clean the dog's molars, incisors and canines. Effectively remove all kinds of food residue, dirt and dental calculus on the dog's teeth, and fully protect the dog's oral health.

Tooth cleaning channel

When the dog chews this toy, the canine teeth will enter the cleaning tank in the cleaning channel. The parallel arrangement of the "pointed rubbing tooth" in the cleaning tank will clean the dog's canine teeth from top to bottom, effectively remove rice residue and dirt on the roots of the tines. Ensure the daily health of the dog's oral cavity.

Drumstick type hard rod

Made of nylon material, extremely resistant to chewing. It can be taken out directly and used as another toy for dogs.

Interactive training ball

Floating toys

Frisbee ball toy

Tug of war toy

Nylon braided rope

The interactive handle rope can help throw toys and can also be used as a tug-of-war toy rope.

Cotton dog rope

Six cotton ropes surround the surface of the toy ball, which can increase the dog's interest in biting the toy and protect the ball when the dog bites the ball.

FPQ01

OUTDOOR FRISBEE BALL INTERACTIVE DOG TOY

[Frisbee ball toy] Made of PP material, small weight and easy to throw. The flight performance is good, so it can fly high and far. And it can better vent the dog's excess energy and release the dog's pressure.

[Bouncing ball toy] This toy can be squashed from a ball into a Frisbee, and the toy can bounce back into a ball when the dog touches it lightly. The ball can be squashed into a Frisbee shape by being lightly stepped on by a dog. High resilience, attract dogs more interest in playing.

[Chew ball toy] The design of adding various mechanical elements forms a different degree of texture surface. The surface of the toy ball is equipped with a spirally wound anti-tear cotton rope, which can attract the dog's interest in playing and effectively protect the dog's oral health.

[Interactive training ball] Each side of the toy is designed with nylon braided rope. The owner grabs the rope and throws the toy directly to let the dog catch it back. Interacting and playing with the dog and repeating this process in this way increases the interest of the product and enhances the relationship between the owner and the dog.

[Tug-of-war toy] The owner and the dog each hold one end of the nylon braided rope, which can be used as a tug-of-war toy. It can not only enhance the dog's physical fitness, but also enhance the feelings between the owner and the dog.

MULTI-FUNCTION DOG DIET SET

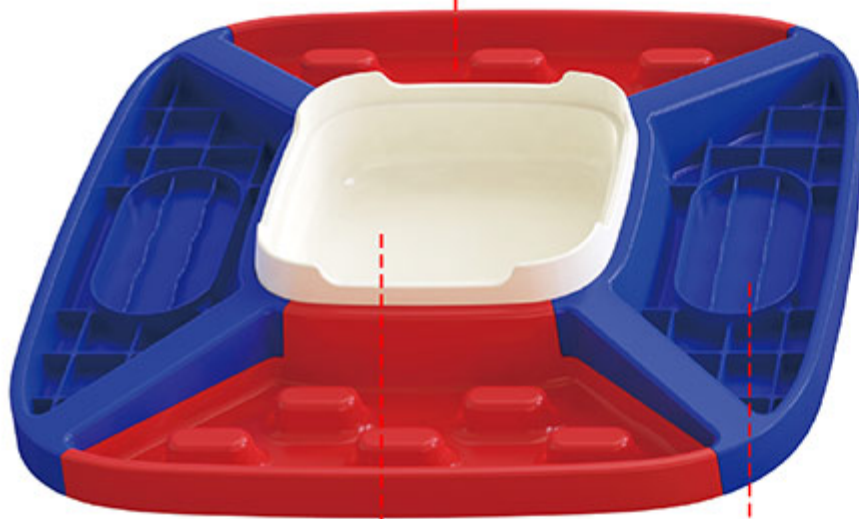

Lick mat

The licking mat is equipped with a slow food column with rounded corners that slows down the dog's eating speed, so that the dog's eating time is prolonged and prevents the dog from swallowing directly. That will protect the gastrointestinal health of pet dogs.

[Multi-function dog diet] This set includes two slow feeder bowls, two lick mats and one drinking tray. A non-slip mat was designed at the bottom of each one to prevent your pet dog from touching and knocking over food plates when eating.

[Slow feeding design] The slow food tray is equipped with a slow feeding column with rounded corners to slow down the eating speed of the pet, so that the pet can extend the eating time, and prevent the pet from swallowing directly. The surface of the slow food column is smooth and free of burrs. Which will not harm the dog's mouth, on the contrary, it will protect the dog's gastrointestinal health.

[Various types of plate design] The middle of the cutlery set is a water basin, which can prevent water from being spilled on the ground when pets are drinking. The licking plate can be coated with thick food such as peanut butter and cheese for pets, and the slow food plate can be placed on pet food and snacks, etc., diversified and enriched the pet dog's diet, ensuring the pet dog's daily needs and nutritional balance.

Drinking tray

The middle drinking tray prevents the water from spilling onto the ground when the pet is drinking.

Lick Mat for Dogs Slow Feeder

There are different sizes of grids for dog food, snacks, vegetables and fruit. Slowing down the eating speed is good for the health of the dog.

UPGRADED SUCTION CUP DOG TOY

Type A
+
Type B

Multifunctional tug-of-war dog toy, designed with powerful suction cup.
Multifunctional molar ball, designed with squeaking function.
Various matching methods, giving dogs different using experience, which has more sell points.

A Design of Powerful suction cup

The suction cup is stable overall and not easy to be pulled apart, which makes the toy more interactive with the dog and will enhance the dog's interest in playing. Each set of products comes with a smooth floor sticker. Before use, you can stick the floor sticker on any surface such as wooden floor or rough ground, and then attach the suction cup to the floor sticker to allow the suction cup to be used in a variety of environments.

B New design of bouncing squeaky food dispensing ball

Designed with large and thick ball, which is more resistant to dog bites. There are cone-shaped, triangle-shaped, zigzag-shaped molar bumps in different sizes that arranged on the surface of the molar ball horizontally and vertically, which can deeply clean the stones and dirt of the dog's incisors, molars and canines while the dog bites the toy, fully protecting the oral health of dog. Designed with food dispensing function, so you can put in snacks to use it as a food dispensing toy for dogs. Also it is designed with squeaking function, which will make a squeaking sound when the dog bites the toy, to better attract the dog's attention. It comes with a dog bite cotton rope, which can increase the dog's interest in playing.

C Molar ball

E 31.5IN elastic rope

Designed with molar balls and elastic rope, which brings dogs two different playing experience and has more selling points.

D 51.18IN anti-tiger bite pull rope

Designed with the extended nylon pull rope, together with the new squeaky food dispensing ball. It's high abrasion resistant and can resist tiger bites without being damaged.

It is made of TPR material that produced by Bayer in Germany, which is thicker and stronger to resist the long-term bite of dogs. But for the health of pets, it is recommended to use it for dogs no more than 20-30 minutes a day. This toy can also be used both indoors and outdoors. This toy can fully consume dog's excess energy if playing this toy frequently. While playing, it can clean dog's teeth, improve its IQ, do exercise, relieve its anxiety, and prevent dogs from tearing furniture or clothes when the owner is not at home.

[Water Float Toy]

TTFSLSQ01

BOUNCING SQUEAKY FOOD DISPENSING BALL

[Squeaky toy] There is a sounding device at the bottom of the product. When the dog bites and plays with the product, it can make a squeak to attract the dog's attention and increase the dog's interest in playing.

[Food dispensing toy] Dog food, diced meat, snacks, etc. can be placed directly on the upper part of the toy. In the process of fiddle, push, and play with the toy, the dog can get dog food or snacks through the food leaking hole, so that the dog can obtain food rewards through his own efforts. Not only increase the fun of the toy, but also improve the dog's IQ during playing.

[Water float toy] This product can be directly thrown into the water when the dog is out for swimming or bathing. Due to the particularity of the product material, this toy can float on the water surface, which can effectively distract the dog and allow the owner to take care of it, which is time-saving, and effortless, and the own doesn't need to worry about anything.

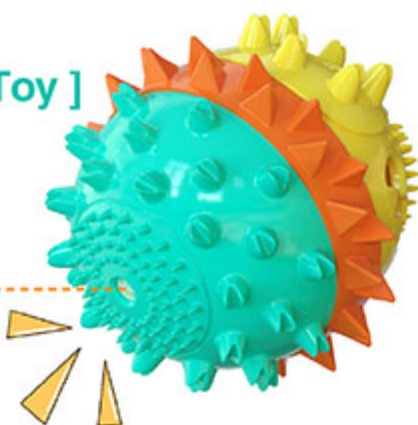

[Molar teeth cleaning toy] This toy is designed with molar bumps of different sizes and strengths, arranged horizontally and vertically on the surface of the toy. When the dog bites the toy, it can remove dental calculus and other dog food residues, snack residues by rubbing the teeth against the teeth. protect the dog's oral health.
