System Characteristics

1. Hydra -revival skin care machine is the“skin cleansing - skin care" function combined with a comprehensive beauty machine.
2. A multifunctional machine that uses a variety of sterile small bubbles, revival-oxygen, RF and ultrasound therapy, four kinds of techniques to treat a variety of skin problems, including acne, blackheads, skin aging, dehydration, sensitive skin and fine lines.
3. Noninvasive non-surgical: non-invasive skin tightening, no hurt, safe and effective.
4. Suitable to wider population, all types of skin surgery can be used safely before surgery.

Treatment Range

1. Aqua cleaning handle-piece — deep cleansing for skin and removing the mites.
2. Revival & oxygen handle-piece— deep cleansing, eliminate the aging of keratinocytes, remove the sebum, grease residue, as the same time put the skin into the oxygen and remove the yellow skin .
3. RF handle-piece— to improve fine lines, and skin tightening all round .
4. Ultrasound import handle-piece— put the skin into the nutrients, and provide lasting nutrition, to make the skin moist and delicate shiny.
