## Choicy Beauty Equipment Series -- SuperMagic

**Model: CB-1302A**

### Product Description

## System Characteristics

SuperMagic adopts unique RF technology. For the flabby and wrinkle skin, the tip transmits high-frequency radio waves to the deep layer skin and at the same time cooling the surface of your skin to achieve the tightening and shaping effect.

**Deep dermal heating:** Deep dermal heating technology of SuperMagic can stimulate and tighten existing collagen and form new collagen. Then the smooth and tightening skin will replace the flabby or wrinkle skin after a period of time, meanwhile the young appearance will be shown

**Dynamic cooling:** SuperMagic will cool the surface skin while heat deep dermal skin, after several seconds of RF output, the coolant will be sprayed onto the surface of the skin, which will lessen pain and protect epidermis, further to improve the treatment results, give a good treatment comfort and keep the epidermis safe at the stage of the treatment.

Therefore, there is no down time, the patient can go back to work and normal lift directly after treatment

## Treatment Range

1. Improving flabby, wrinkle, aging and rough skin, reshaping face profile, effectively lifting the flabby tissues around eyes and neck
2. Tighten flabby skin, dispel true and false wrinkles, repair stretch marks
