ACTMIX CTP-80NR

Anti-Scorcher CTP (PVI)

Active ingredient CTP is a vulcanization

retarder of nature rubber and diene rubbers,

which can unnoticeably prolong total vulcanizing

time. It can improve processing safety and not

impact properties of vulcanizates combination

with sulfenamides or thiazoles. This product can

significantly improve the storage stability and

high temperature processing safety performance

of unvulcanized rubber, fully improve equip-

ments production capacity. It does not cause a
