公司简介 COMPANY PROFILE

生力服务于食品、药品、玩具、化妆品、日化用品、电子产品、装饰用品等行业，通过使用丝网印、移印、烫金、贴标、胶印及数码打印等自动化印刷技术，实现在塑料、金属、玻璃及陶瓷等材料的各种形状的产品表面上印刷高质量的精美图文。

自1994年以来,生力始终坚持“为客户提供优质的产品和服务”的经营理念，采用最先进的电气控制元件和材料进行研发和制造，不断提高在各种产品上的印刷质量，满足市场对日益广泛的高品质包装需求。

Senny serves food, medicine, toys, cosmetics, daily chemicals, electronics, decorative products and other industries. Through the use of automatic printing technologies, such as screen printing, pad printing, hot stamping, labeling, offset printing and digital printing, it realizes printing high-quality exquisite graphics & texts on the surface of various shapes of products such as plastic, metal, glass and ceramics.

Since 1994, Senny has always adhered to the business philosophy of providing customers with high-quality products and services, exploiting the most advanced electrical control components and materials for R&D and manufacturing, and continuously improving the printing quality on various products to meet the increasingly extensive market requirements for high-quality packaging.

SL1788

Plastic Jug/Bottle Automatic UV Printing Machine

Machine Features

- The machine is suitable for screen printing of various colors of UV ink, hot stamping, labeling and other decorations on round, oval, square and other shapes of plastic jugs/bottles.
- The machine adopts well-known brand electrical components, easy-to-use touch screen and PLC control system, with reliable performance.
- The machine uses a highly customizable modular structure, which can be connected in a straight line to be a 1-8 color printing machine.

Optional Configuration

- Plasma surface treatment function.
- Hot stamping function.
- Labeling function.
- LED-UV curing function.

Technical Parameters

Machine Model	SL1788
Printing Speed	Up to 80pcs/min
Round Bottle Diameter	20–100mm
Oval Bottle Radius	25–250mm
Oval/Flat Bottle Width	20–170mm
Bottle Height	50–300mm
Max Printing Length	300mm
Max Printing Height	200mm

PRINTING YOUR VISION

SL268

1-5L Plastic Round Bucket UV Printing Machine

Machine Features

- The machine is suitable for screen printing UV inks of various colors on 1-5 liter plastic round buckets.
- The machine adopts well-known brand electrical components, easy-to-use touch screen and PLC control system, with reliable performance.
- The machine adopts a highly customizable modular structure, which can be connected in a straight line to become a 1-8 color printing machine.

Optional Configuration

- LED-UV curing function

Technical Parameters

Machine Model	SL268
Printing Speed	Up to 35pcs/min
Round Bucket Diameter	80-220mm
Round Bucket Height	100–300mm
Max Printing Length	600mm
Max Printing Height	250mm

PRINTING YOUR VISION

SL700

7-25L Plastic Round Bucket UV Printing Machine

Machine Features

- The machine is suitable for screen printing UV inks of various colors on 7-25 liter plastic round buckets.
- The machine adopts well-known brand electrical components, easy-to-use touch screen and PLC control system, with reliable performance.
- The machine adopts a highly customizable modular structure, which can be connected in a straight line to become a 1-8 color printing machine.

Optional Configuration

- LED-UV curing function.

Technical Parameters

Machine Model	SL700
Printing Speed	Up to 18pcs/min
Round Bucket Diameter	150-350mm
Round Bucket Height	200-400mm
Max Printing Length	900mm
Max Printing Height	250mm

PRINTING YOUR VISION

SL700-F

10-25L Plastic Flat Bucket UV Printing Machine

Machine Features

- The machine is suitable for screen printing UV inks of various colors on 10-25 liter plastic flat buckets.
- The machine adopts well-known brand electrical components, easy-to-use touch screen and PLC control system, with reliable performance.
- The machine adopts a highly customizable modular structure, which can be connected in a straight line to become a 1-8 color printing machine.

Optional Configuration

- Plasma surface treatment function.

Technical Parameters

Machine Model	SL700-F
Printing Speed	Up to 18pcs/min
Flat Bucket Diameter	150-350mm
Flat Bucket Height	200-410mm
Max Printing Length	250mm
Max Printing Height	250mm

PRINTING YOUR VISION
