

Function:

Anti-scratch, Anti-Fingerprint, anti-explosion, Anti-SPY, High Transparent, Anti shock, FULL GLUE, Anti-Oil, ULTRA-THIN, Bubble Free, HD CLEAR

Model Number:

20-22(490\*317)mm

Use:

PC / Notebook, Laptop, Computer, Display

Material:PET, Acrylic

Radian:2.5D, 3D

Quality:Grade AAA

Place of Origin:Guangdong, China

Compatible Brand:For Other Brand

Product name:Privacy Screen Filter

Raw Material:Acrylic

Hardness:2-3H

Transparency:75%±5%

Thickness:2.4mm±0.1mm

Usage:Laptop Computer TV

Color:Transparent Clear

Keyword:Anti-peep Privacy Film

Name:Hang-on Privacy Screen Filte

What is Privacy Filter?

A privacy filter, also called a privacy screen or a monitor filter, is designed to protect a laptop or the screen of a desktop monitor from prying eyes and shoulder surfers. They decrease the viewing angle, allowing only the person sitting immediately in front of the screen, typically the user, to view the contents of the screen. Privacy filters fit directly above a monitor screen and attach securely in front. Privacy filters also reduce radiation and glare generated from LCD and CRT computer monitor displays.

Features:

1. Helps keep your personal or confidential information safe from prying eyes.
2. You'll see the information on your display while people on either side only see a darkened screen.
3. Custom fit to your laptop display.
4. Lightweight, thin, frame less design.

5. The filter application system features an optically clear adhesive designed specifically for display screens .
6. Testing proves that, when kept clean, the filter can be re positioned hundreds of times.
7. Reversible,matte side helps reduce glare and reflections.
8. Helps protect display from dirt, debris and scratches.
9. Cleans easily with a soft cloth and water.
10. Includes a convenient storage folder that keeps your privacy filter clean while not in use on your device.
11. Great for high traffic areas such as airports, airplanes, commuter trains, coffee shops and other public places.
- 12.Limited 1-year warranty.
