

# Manta G712N Silicone Elastomer Gel

## Description

Manta G712N is a mixture of caprylyl dimethicone ethoxyglucoside and dimethicone crosspolymer and non-volatile low viscosity dimethicone. It has a transparent gel-like appearance, has the silky feel and wrinkle-covering function of elastomer gel, and also has the self-emulsifying function brought about by glucose modification. It is especially suitable for water-based cream formulas and has good formula stability.

## Typical Physical Properties

INCI/CTFA	Caprylyl Trimethicone (and) Caprylyl Dimethicone Ethoxyglucoside (and) Dimethicone Crosspolymer
Appearance	Colorless transparent colloid
Non-volatile content (%)	≥ 20
Viscosity (cP, S94, 2.5RPM, 25°C)	10,000-100,000

## Properties

- Emulsifier raw materials are green and natural;
- Strong self-emulsifying function, can be cold prepared;
- Has a certain oil phase thickening effect;
- Transparent appearance, safe and environmentally friendly;
- Excellent water-holding properties, especially suitable for moisturizers;
- Delicate and smooth feel.

## Applications

Manta G712N can be used as high-end skin care and moisturizing products, excellent water-containing performance moisturizing cream and water-extracting cream products.

## How to use

When Manta G712N is used alone, it is recommended to disperse it evenly with various oils and fats, then slowly add the water phase in batches, and stir and shear at high speed to disperse; When compounding, disperse the oil with good compatibility and then add it to the oil pan to participate in emulsification, or directly add it in the later stage of emulsification and stir to combine; Heating operations should be carried out in a closed container, and the heating time should not be too

long.

The recommended usage level is 1%-20%.

### Packaging

In 200L drum, IBC

### Safety and Storage

Keep away from heat and open flame. Prevent from the exposure of moisture, acid, alkalis and other impurities. When stored at well in the original unopened containers, this product has a usable life of 24 months from the date of production (drum packing).
