

# Manta G712 Glycoside Silicone Elastomer Gel

## Description

Manta G712 is a mixture of Caprylyl dimethicone ethoxyglucoside and dimethicone crosspolymer and non-volatile low viscosity dimethicone. It has a transparent gel-like appearance, has the silky feel and wrinkle-covering function of elastomer gel, and also has the self-emulsifying function brought about by glucose modification. It is especially suitable for water-based cream formulas and has good formula stability.

## Typical Physical Properties

INCI/CTFA	Cyclopentasiloxane (and) Caprylyl Dimethicone Ethoxy Glucoside (and) Dimethicone Crosspolymer
Appearance	Colorless transparent colloid
Non-volatile content(%)	≥ 70
Viscosity (cP, S94, 2.5RPM, 25°C)	10,000-100,000

## Properties

Emulsifier raw materials are green and natural;  
Strong self-emulsifying function, can be cold prepared;  
Has a certain oil phase thickening effect;  
Transparent appearance, safe and environmentally friendly;  
Excellent water-holding properties, especially suitable for moisturizers;  
Delicate and smooth feel.

## Applications

Manta G712 is widely used in high-end skin care and moisturizing products, and has excellent water-containing performance in moisturizing cream products.

## How to use

When Manta G712 is used alone, it is recommended to disperse it evenly with various oils and fats, then slowly add the water phase in batches, and stir and shear at high speed to disperse;  
When compounding, disperse oil with good compatibility and then add it to the oil pan to participate in emulsification, or add it directly in the later stage of emulsification and stir evenly;  
It can be hot prepared. The heating operation should be carried out in a closed container, and the

heating temperature should not exceed 100°C.

The recommended usage level is 1-20%, the specific usage method depends on actual needs.

### Packaging

In 200L drum, IBC

### Safety and Storage

Keep away from heat and open flame. Prevent from the exposure of moisture, acid, alkalis and other impurities. When stored at well in the original unopened containers, this product has a usable life of 24 months from the date of production (drum packing).
