

200KG Technical Parameter (One integral machine)

No.	Parameter/Name	Specification /Quantity	Remarks
1	Dimensions	2000×2380×1600 mm	Length 、 Width、 Height.
2	Total power	5.0kw	heater, thermal cycling system, exhaust system
3	Rack	2 PCS	SUS304 , size in order to prevail in kind
4	Tray	40 sets	SUS304 , size in order to prevail in kind
5	off-take potential	Fresh garlic 200KG/ lot	storage of fresh garlic, water about 62%±3
6	processing cycle	15-20 days	Controlled fermentation and drying time according to different raw materials producing area and fermentation conditions
7	Touch screen temperature control system	PLC intelligent control system	can be upgraded to achieve remote control
8	Program and control parameters are encrypted	One or Two level encryption	as required
9	Control interface	Scalable	Equipment operating components and technical parameters of full screen display
10	long-distance control	Reserved interface	as required
11	inner-wall material	1.5mm thick	SUS304
12	Outer-wall	1.5mm thick	SUS304
13	Insulating layer material	rock wool , thickness 100mm	The volume of rock wool 100kg

Remark : Publisher is Shandong Heying machinery technology Co., Ltd., please make the object as the standard.
