KLYDE Electronics Co., Ltd. is a professional high-tech enterprise specialized in developing, manufacturing and selling Android car Multimedia. We are the earliest development of android system and our android is the most stable. Now our latest products is android 9.0 car Multimedia with 8core/64 GB, LDWS,TPMS,DAB,PARROT BT,etc. We always keep improving & developing products to meet client's requirements. We have established business relationships with many esteemed clients from Japan, Europe, South America, the Middle East and Southeast Asia, etc .

COMPANY PROFILE

Established in 2009, Shen Zhen KLYDE Electronics Co., Ltd. is a professional high-tech enterprise specialized in developing, manufacturing and selling car audio and car video product. Our products including high-tech car multimedia system with 10 years experience manufacturer in car entertainm-ent field, We have established business relationships with many esteemed clients from Japan, Europe, South America, the Middle East and Southeast Asia, etc .

Our 12,000-square-meters manufacturing center, whose monthly production capacity is about 27,000pcs, The production is operated strictly in compliance with the standards of quality management of ISO 9001:2008 all products have CE,UL, E-MARK(E8), FCC, and FDA etc approval, 270 skilled workers and 34 highly qualified and experienced R & D engineers and technicians who always keep improving & developing products to meet client's requirements. We also have strict QC teams and professional sales & service teams who can offer passionate and in time service, which definitely enables us to provide our valued customers with high quality products, competitive prices and first class services.

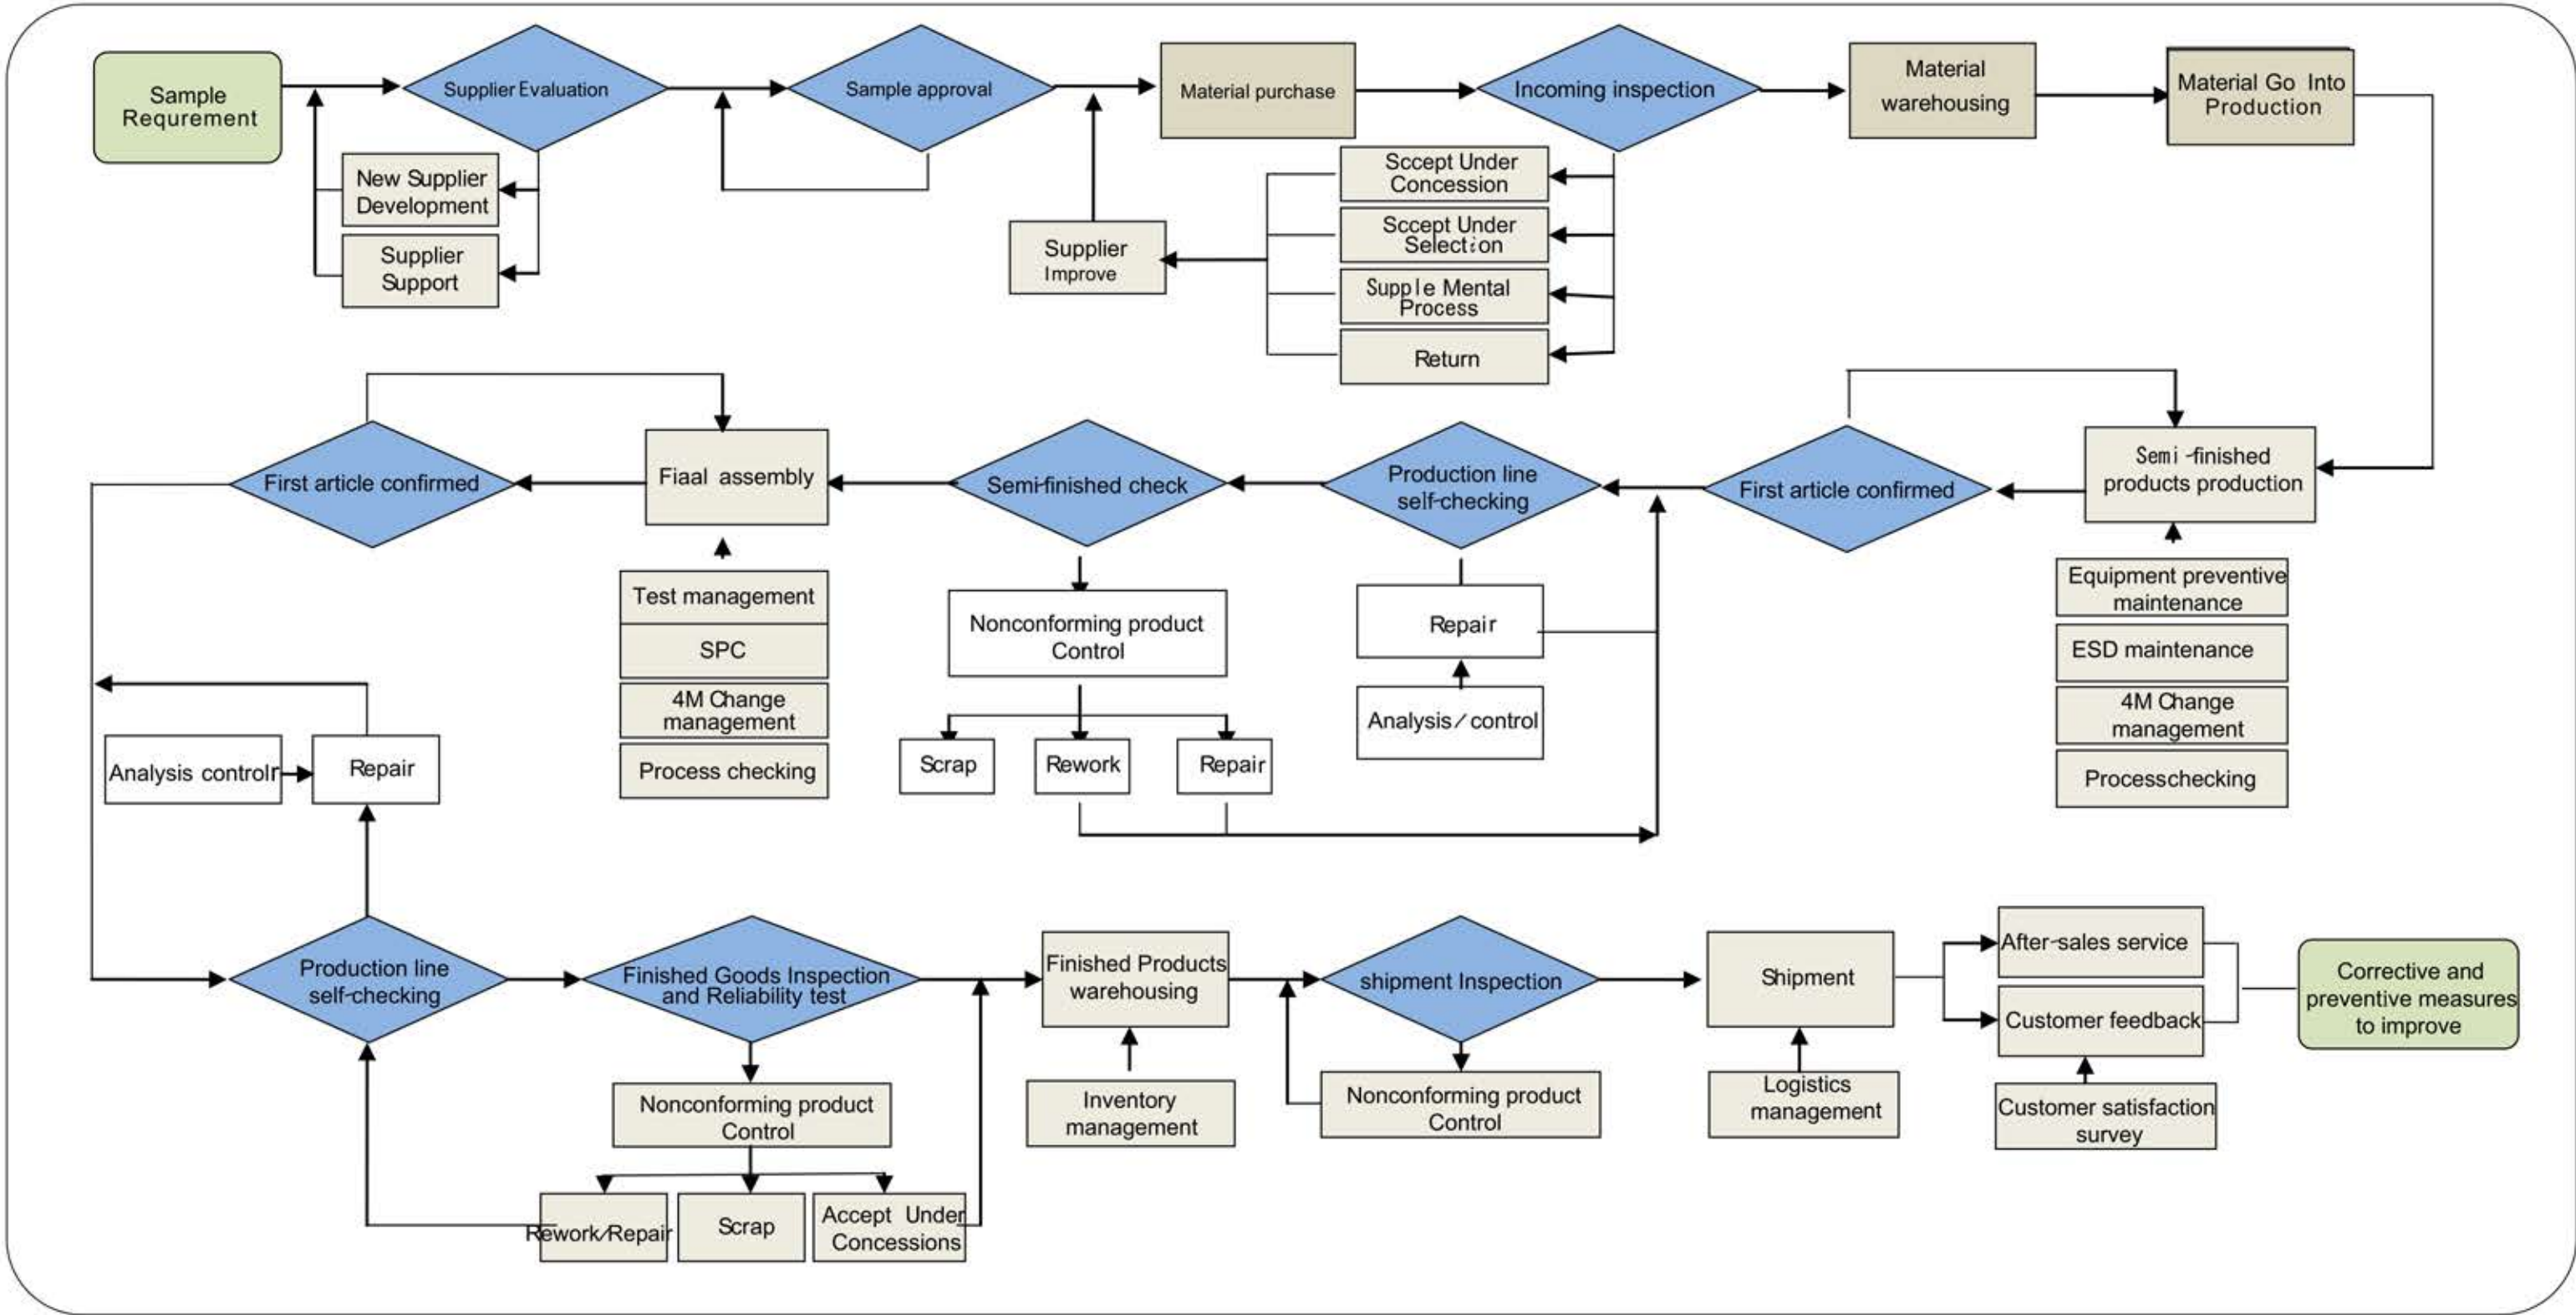

The most important thing, we passed IATF 16949, welcome more and more before market clients join us .

MARKET

KLYDE Quality Control Flow Chart

Incoming Quality Control(IQC):

All incoming materials are 100% tested by advance testing equipment.
 In Process Quality Control (IPQC-FQC):
 Following 100% QC checking, finshed products will be taken to aging testing, then launching to the next procedure. After experienced full function quality testing, destroy testing and circumstance testing, finshed products could be stored in warehouse.

Outgoing Quality Control(oqc):

After IPQC, FQC Strictly control, if the goods pass the inspection, all of outgoing product will be random tested again by our QA according to the AQL standard.
