

### BWT310 Insulating powder-actuated fastening tool

Applications	Technical Parameters	Features
<ul style="list-style-type: none"> <li>Used for installation and fastening of thermal insulating layers on concrete, brickwork, hollow brick and mosaic walls, etc</li> </ul>	<ul style="list-style-type: none"> <li>Indirect act (Piston)</li> <li>Equipped with 4 power levers of special power loads for external wall insulation</li> <li>Equipped with 25mm-200mm nails (special long fittings required in case of 120-200mm)</li> <li>Weight: 2.56kg</li> <li>Length: 413mm</li> </ul>	<ul style="list-style-type: none"> <li>High construction efficiency over 5 times of traditional methods, saving manpower greatly by a rate of 6-8 nails/minute</li> <li>Strong fastening force, 3-5 times (1.4KN) of traditional anchoring</li> <li>Self-contained power supply without need of auxiliary power, easy for construction and avoiding electric spark</li> <li>Lightweight and comfortable equipments to reduce greatly the labor intensity.</li> </ul>

■ New design for longer service life

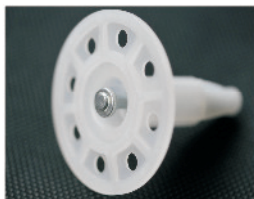

■ Power adjustable

■ Easy operation, fast and efficient

### Equipped with drive pins

Insulation nails

### Equipped with power loads

Insulation power loads

### Direct Fastening
