

## Antiwear Low Zinc Industrial Hydraulic Oil Additive Package T5031

### Product Introduction

It is mainly composed of high-grade ashless antioxidant and basic zinc containing antioxidant and anti-corrosion additive, with high-efficiency rust inhibitor additive, anti-wear additive. Imported antifoam and demulsifier are blended as auxiliary agents. The blended hydraulic oil has excellent oxidation stability, inhibits the formation of oil sludge and prolongs the service life of the oil; The super strong anti-wear performance endows the metal with strong anti-corrosion protection, good sealing compatibility, and prolongs the service life of hydraulic components;

**Recommended Treat Rate (wt%):** 0.6%

Net Weight: 200kgs/drum

Storage and Transportation, Non-dangerous goods, store in dry, cool ventilated area.

### Product Quality Characteristics & Test Method

Item	Typical Value	Test Method
Appearance	Yellow transparent liquid	Visual
Kinematic Viscosity, 100°C, mm <sup>2</sup> /s	Report	ASTMD445
Flash Point, °C	> 110	ASTMD92
Sulfur, wt%	6.5	ASTMD5185
Phosphorus, wt%	3.2	ASTMD5185
Zinc, wt%	3.9	ASTMD5185
