公司概况

Company Profile

公司简介

宁波焰科电子科技有限公司，立信工贸发展有限公司(香港)是一家集设计、开发、生产为一体的专业火花塞生产厂家，产品广泛适用于汽车，摩托车和园林机械等各类汽油，天然气发动机。公司成立于2002年，目前采用日本NGK及美国冠军火花塞采用的冷封装技术，使用同等材料及同等工艺生产，冷封装火花塞比热封装火花塞密封性更好、铁壳和陶瓷的质量更稳定，不易出现漏气及断裂现象。我司拥有雄厚的技术力量，先进的生产、检测设备。经过十年的努力，我司现已成为国内为数不多能成熟运用冷封装火花塞技术的火花塞厂家之一，现可生产12大类100多个型号火花塞，年产各种型号火花塞600万只。

除了先进的生产工艺，我司的另一特色是自动化程度高。采用国内外先进自动化生产设备，产品由全自动流水线装配而成，大大的降低了生产成本，使产品更一致标准化。良好的信誉，优质的产品 & 精密的品质控制使我司能为众多发动机主机厂，摩托车主机厂配套供应。我司产品已出口东南亚，中东，澳大利亚，南非，美洲等20多个国家和地区。

“求新，拓精，一切为了顾客”是我司企业的宗旨。“您的要求,是我们不断努力和追求”是我司对所有顾客的承诺。欢迎新老客户亲临洽谈,合作指导!

COMPANY INTRODUCTION

NINGBO YANKE ELECTRONIC TECHNOLOGY CO. , LTD ,
LIXIN INDUSTRIAL & TRADE CO., LIMITED(HK) is an enterprise with the capability of design, developing and manufacturing in spark plug industry. Our products are covering in the area of automobile, motorcycle and gardening tool which are used in all kinds of petrol engine and gas engine. Our company was set up in 2002. We have already got ISO9001:2015 certificate.

We are using the advanced cold punch technology to produce spark plug which is similar to NGK and Champion technology. With such technology, the metal shell and ceramic are better protected and the quality of the spark plug are more stable to get avoid from air leaking and breaking. Our spark plug products are ranged into more than 100 models with an annual output of 6 million pcs.

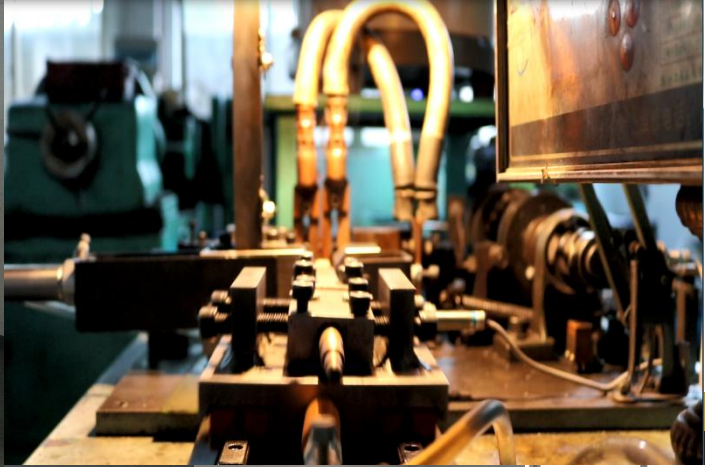

Besides the advanced technology, we also have a strong advantage of automatical production. Most of our production device is automatical that let us have very high efficiency and stable quality. Throughout such years of developing, we have gained a good reputation as domestic motorcycle manufacturer. Furthermore, our products have been exported to South East Asia, Middle East, Australia and so on.

In the environment of the rapid development of the auto parts, in order to have a strong stand in the market, LIXIN is committed to creating “brand, quality, technique, service” as our company’s core competency. “Customer-centered, quality - first and service-aimed is our company philosophy. LIXIN will provide first-class products with outstanding service according to each customer’s requirements.

生产车间/生产设备

PRODUCTION EQUIPMENT

火花塞设计

Special designs

V-grooved & U-grooved plug

V槽和U槽火花塞

Benefit

- Reduce the voltage required
- Improve fuel economy
- Improve starting
- Better acceleration
- More stable idling

效益

- 减少电压需求
- 提升燃油经济性
- 提高点火速度
- 更好的提速
- 更稳定的怠速

Multi-ground electrodes plug 多侧电极火花塞

Benefit

- Improve fuel economy
- Withstand gap erosion
- Longer service life
- Improve ignitability

效益

- 提升燃油经济性
- 抵抗侧电极腐蚀
- 更长久的使用寿命
- 提高可燃性

Iridium plug

铱金火花塞

Benefits:

- Reduce the voltage required
- Improve ignitability
- Longer service life
- Improve starting, acceleration&idling
- Keep engine at peak performance

效益

- 减少电压需求
- 提高可燃性
- 使用寿命长久
- 提高点火速度，提速和怠速
- 使发动机保持在极佳的性能状态下
