

The Best Quality Manufactures Of BMC/SMC Animal Husbandry Equipment

Leading Pioneer Business Model

BMC/SMC Animal Husbandry Equipment

Pig Slat Floor/Feeder/Piglet Incubator/ Electric Heating Plate Etc.

Company Profile

Changxing Ro-spring Road Facilities Co.,Ltd is located in Changxing,North of Zhejiang Province,China.We are the high-tech enterprises that specialized in developing and manufacturing new composite materials,the domestic professional manufacturer of the most superior BMC/SMC composite animal husbandry equipment series products,the leader of the composite animal husbandry industry.

Our company has ability to independent research and development,and posses the leading technology of production of BMC slats,enjoy high reputation in the domestic market.In 2013,our company researched and development of SMC composite incubator,feeder series products,with better toughness and impact strength , greatly extend life of the products.Made up for the defect of the BMC material,upgraded the products and went to the forefront of the market of composite animal husbandry equipment again.

From 2004 when the first generation products launched on the market,our

company has owned unanimous praise from our customers. We have long term cooperation with the famous company in China,such as(WENS、 COFCO、 CPGROUP ETC.),Our products win the praise repeatedly at the animal husbandry exhibition,become the most hot sale products in the market .

In recent years,there appeared many manufacturers who also made BMC slat, their product formulation, manufacturing technology totally take the reference of the fault manhole,the quality can not compare with our authentic products.To keep the real advantage of the BMC/SMC animal husbandry equipment,our company will persist in making the most superior products.defend the markets' reputation.

The Best Quality Manufactures Of BMC/SMC Animal Husbandry Equipment

Specifications

It's the new generation slat floor for pigs

It's the best alternative for plastic floor, cast iron floor and cement floor.

1. BMC (Bulking Molding Compound)

BMC material is the abbreviation of bulk molding compound and it is often called unsaturated polyester dough molding compound in China. It is dough soaked materials made up of mixed short glass fibers unsaturated resin, fillings and various additives. BMC material was first applied in Federal Germany and UK in 1960s , and then was greatly developed in U.S.A in 1970s and in Japan in 1980s respectively. Because it is endowed with favorable electrical property, mechanical performance, good high-temperature proof and chemical anti-erosion as well as being anti-erosion, it is adoptable for various processes, that is to say, it can meet performance requirements for different products, and it is widely used in all areas such as electrical parts, Automobile parts,household goods, UV-resistant outdoor products, packaging field, lighting materials.

Buck Molding Compounds are formulated to achieve close dimensional control flame and track resistance,electrical insulation corrosion and stain resistance,superior mechanical properties low shrink,and color stability

2. SMC (Sheet moulding compound)

It is a reinforced composite material.The main raw material by Special yarn, unsaturated resin, low shrinkage and fiber glass additive, MD, fillings and various additives.After proceeding, with polyethylene film on both sides of the cover sheet.

SMC has excellent physical properties, electric properties and flame retardent properties. So it is widely used in automobile industry, electrical and communication engineering,architecture.

Advantages:

- Structural stability can provide the strength and toughness
- Strong load-bearing fits for pigs in all ages
- Anti-corrosion,Lightness, Good leak effect
- Rugged but soft surface can protect pigs body and foot
- Low coefficient of heat conduction made it cool in summer and warm in winter
- Easy to install and clean
- Can serve for 20-30 years
- Chinese Standard Fireproof & European Standard Fireproof
- We can make the product according to your request,sample and drawing

Here is the comparison of BMC, Cast iron, Plastic and Cement:

Style	Intension	Corrosion resisting	Anti- aging	Anti-stress	Transport convenience	Whether suction	Use life	Leak effect	The injury to sow teat and pig skin	price
BMC slat	high	good	good	good	convenience	no	20-30 years	good	not easy to damage	middle
Iron slat	high	good	good	bad	general	no	20-30 years	good	easy to damage	high
Plastic slat	low	bad	Bad	good	no	no	3-5 years	good	not easy to damage	low
Cement	low	general	general	general	inconvenience	yes	3-5 years	general	easy to damage	low

The Best Quality Manufactures Of BMC/SMC Animal Husbandry Equipment

Enterprise Vision:Treat Life For Pig(Animal)

Enterprise Culture:Sincerity Respect Innovation Win-win

Product Declaration:Do Not Fe Fake To Be Best Quality

The Best Quality Manufactures Of BMC/SMC Animal Husbandry Equipment

Slat Floor For Sow

Ordinary

Name: BMC Slat Floor For Sow (Light-duty)
Type: RQLF001-1100*600*35 (Classic)
Gap: 13mm

Name: BMC Slat Floor For Sow (Light-duty)
Type: RQLF002-1100*600*35 (Classic)
Gap: 13mm

Ordinary

Name: BMC Slat Floor For Sow (Light-duty)
Type: RQLF001D-1100*600*35 (Model D)
Gap: 11mm

Name: BMC Slat Floor For Sow (Light-duty)
Type: RQLF002D-1100*600*35 (Model D)
Gap: 11mm

Ordinary

Name: BMC Slat Floor For Sow (Light-duty)
Type: RQLF001F-1100*600*35 (Model F)
Gap: 15mm

Name: BMC Slat Floor For Sow (Light-duty)
Type: RQLF002F-1100*600*35 (Model F)
Gap: 15mm

Slat Floor For Sow

Heavy

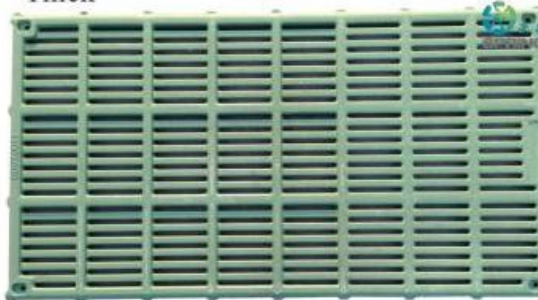

Name: BMC Slat Floor For Sow (Heavy-duty)
Type: RQLF001A-1100*600*35 (Model A)
Gap: 11mm

Name: BMC Slat Floor For Sow (Heavy-duty)
Type: RQLF002A-1100*600*35 (Model A)
Gap: 11mm

Thick

Name: BMC Slat Floor For Sow (Thick)
Type: RQLF001C-1100*600*38 (Model C)
Gap: 11mm

Name: BMC Slat Floor For Sow (Thick)
Type: RQLF002C-1100*600*38 (Model C)
Gap: 11mm

Double Heavy

Name: BMC Slat Floor For Sow (Double Heavy)
Type: RQLF001E-1100*600*35 (Model E)
Gap: 9mm

☆ Recommend

Name: BMC Slat Floor For Sow (Double Heavy)
Type: RQLF002E-1100*600*35 (Model E)

Slat Floor For Nursery Pig

Name:BMC Slat Floor For Nursery Pig
Type:RQBY004-1500*600*35
Gap:14mm

Slat Floor For Fattening Pig

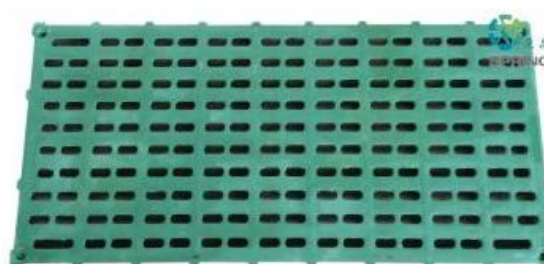

Name:BMC Slat Floor For Fattening Pig
Type:RQYF002-1100*600*40
Gap:20mm

Name:BMC Slat Floor For Fattening Pig
Type:RQYF004-1100*600*35
Gap:20mm

Name:BMC Slat Floor For Fattening Pig
Type:RQYF001-1200*600*40
Gap:20mm

Name:BMC Slat Floor For Fattening Pig
(Double Heavy)
Type:RQYF003-1500*600*40
Gap:22mm

★ Recommend

The Best Quality Manufactures Of BMC/SMC Animal Husbandry Equipment

Slat Floor For Gestation Stall

Name: BMC Slat Floor For Gestation Stall
Type: RQDW001 -600*600*40
RQDW001X-600*600*40
Gap: 16mm/19mm

Name: BMC Slat Floor For Gestation Stall
Type: RQDW003-1000*600*40
Gap: 20mm

Piglet Incubator

Name: BMC Piglet Incubator
Type: RQBW001-1060*600*620
RQBW003-1030*600*620

Name: BMC Piglet Incubator
Type: RQBW004-1160*600*620

Name: SMC Piglet Incubator (Non-friable)
Type: RQSMC001-1060*600*620

★ Recommend

The Electric Heating Plate

Power: 190~200W
Temperature: 28~36℃
Consumption: 1.6 ~1.8 (24hours)

Name: BMC/SMC Electric Heating Plate
Type: RQBW002-1100*600*35
RQBW005-1200*600*35
Thermostat (Simple/Digital/Screen)

Double—face Nursery/Fattening Feeder

Name:BMC Double-Face Nursery Feeder
Type:RQLC002-730*520*580
Feed Capacity:50kg

Name:BMC/SMC Double-Face Large Nursery Feeder
Type:RQLC005-1000*520*680
Feed Capacity:80kg

Name:BMC/SMC Double-Face Fattening Feeder
Type:RQLC001-1030*700*800
Feed Capacity:100kg

☆ Recommend SMC Material

Name:BMC/SMC Sow Feeder
Type:RQLC003-320*420

Accessories

Name:BMC/SMC Piglet Feeder
Type:RQLC004-460*190(3 holes/4 holes)

Name:BMC/SMC Support
Type:RQQT001-4 holes
RQQT002-2 holes
