

PCB V Slot Hoe Knife Separator

Model :SF-705

Features:

1. This machine apply the new type improved wireless sectional cutting technology to handle operations for V-cut connecting plate & split board and effectively remove stress.
2. Adjust the blade gap easily, even highly sensitive SMD parts or ultra thin PC plate can be cut safely.
3. Apply the activated parts driven with no noise.
4. Thickness of the sectile plate is within 0.5-2.0mm, the max length of PC plate is 330mm.If need to cut longer plate, then we can do customization.
5. Suit for V- PCD plate, aluminum plate and CUT plate etc..
6. Control by electric pedal or pneumatic pedal. The hoe knife plate splitting is completed by the motion of air cylinder.

Specifications:

- Power: 110v/220V AC 60 /50 HZ
- Size: L700mm*W230mm*H400 mm, L700mm*W400mm*H400mm(with table)
- Weight: 150KG (without table)
